## **Orientation Programme in DISE Data Capture Format through EDUSAT**

### **Background**

Under the District Information System of Education (DISE) data is collected from over a million schools imparting elementary education across the country. In DISE, the errors can be committed at the stage of filling in of revised DISE DCF and data entry. It is seen that sometimes the respondents fill up the formats casually with little or no idea of its utility and use. At times they do not make some of the entries. In some cases wrong and inconsistent entries are also seen which have no relevance to other entries made in the format. Against this background, there is a long-felt need to conduct an intensive training programme of all the respondents for DISE data capture. It is also essential to apprise the respondents regarding the significance of revised DISE data capture format in terms of need, importance and utility. This will motivate them to respond precisely and reliably. This would also help to acquaint them with the common errors committed by them. In addition to this it would pave way for the timely submission of information which always is the essence of data collection, compilation and use.

The number of respondents to the DISE DCF capture format is too large and adopting cascade model for orienting them would result in training loss. In this context, teleconferencing was adopted in order to orient relatively large number of respondents assembled in different centres with the help of few experts situated at studio of Educational Media Production Centre (EMPC), IGNOU, Maidan Garhi, New Delhi. It was also felt that the teleconferencing mode would give an opportunity to the respondents to interact with the other respondents. The training programmes were conducted on September 9, 2009, September 21, 2010 and September 27, 2010 just prior to the DISE data collection so that there no time lag between training and actual data collection exercise.

The programme involved the use of one-way video and two-way audio technology and covered all the states/ union territories for training the respondents. The facilities provided by EMPC, IGNOU were utilized. The hub centre facility consisting of a studio and necessary switching system is stationed at the Maidan Garhi campus of IGNOU. For

interactive communication through voice, a normal toll free number can be used to contact the studio at Maidan Garhi. These telephone messages from different receiving terminals were fed into the on-going teleconference sessions and could be listened to by participating locations as an integral part of the communication system. The teaching end was EMPC studio, IGNOU. Regional Centres and selected receiving centres of Indira Gandhi Open University (N=100) having receiving facilities were used as the learning ends.

The evaluation of the orientation was a continuous and concurrent activity. The feedback from the participants was collected through audio feedback at the end of the programme. The programme was facilitated through nodal officers who were nominated by the State Project Directors of the respective states. The functions of the nodal officers were as follows:-

- Coordination with the Regional Directors of Indira Gandhi National Open University
- Coordination for arrangements at the IGNOU Receiving Centres(Learning ends)
- Allocation of the participants to the receiving centres as per the seating capacity and proximity
- Organization of discussions and activities at the Receiving Centres (Learning ends)

### **Present Programme and Objectives**

With the above background, NUEPA organized first orientation programmes in DISE Data Capture Format through EDUSAT September 9, 2009. This was followed by organization of two more programmes which were held on September 21 and September 27, 2010. The overall objectives of the programmes were to strengthen capacities of those who were associated with the filing up of DISE Data Capture Format. More specifically, the main objectives of the programmes were to:

- Acquaint the participants with importance of DISE and objective of collection of information through DCF for DISE
- Train the participants with the methodology of filling up the DISE Data Capture Format
- Make the participants aware of the common errors committed by them in filling up forms
- Invite suggestions for amendments, if any, in the DCF for DISE

- Provide a platform to the DISE data capture format respondents to share their experiences and difficulties

### **Expected Outcomes**

It was expected that at the end of the programme, the participants will have a better understanding of the revised DISE Data Capture Format. They will also learn about the importance of DISE and the objective of collection of DISE data. The participants were also expected to fill up the DISE data capture format without any errors. They will also be exposed to the items in the DISE Data Capture format. In addition to this they will be exposed to the data requirements in terms of right to education act.

### **Themes:**

- Significance of DISE data, Need, Importance and Utility
- DISE Data Capture Format
- Common Errors in Filling up revised DISE DCF
- Data requirements in terms of RTE
- Time Scheduling for DISE Data Capture Format

### **Time-Table**

The schedule of the programme is presented in the Annexure I.

### **Duration and Venue**

All the three programmes were of one day duration only that is on 9th September 2009, 21st September 2010 and 27<sup>th</sup> September 2010. The teaching end for the programme was EMPC, IGNOU where the experts were stationed. The programme was received at the receiving centres of IGNOU, homes and offices of respondents equipped with DTH/internet facilities and also the BRCs and DIETs having receiving facilities of Gyan Darshan II channel.

### **Programme Methodology**

The programme was designed to suit the objectives of developing an understanding of the participants (i.e. BRC Coordinators, CRC Coordinators, District MIS In-charges, Headmasters and Principals) regarding filling up of the DISE data capture format. They asked questions directly to the resource persons at the IGNOU studio at Delhi through toll

**Resource Persons at the Learning End (IGNOU Studio, Delhi)**

free number 1800112345. In addition to there two other landline numbers and one fax number available at the IGNOU studio through which questions could be asked.

**Participants from Delhi Region at IGNOU Studio, Delhi**

The participation was facilitated by adopting a multi-pronged approach:

- The participants who had DTH facility at home or work place participated in this programme by viewing the Gyan Darshan II (GD-II) channel from the work place or home.
- The participants having internet broadband facilities could also view the teleconference programme through the IGNOU website: [ignou.ac.in](http://www.ignou.ac.in) or by clicking on the link <http://www.ignouonline.ac.in/broadcast/>
- IGNOU Receiving Centers
- Other Institutions having receiving facilities such as DIETs, BRC Centres

**Participants at Ujjain, Madhya Pradesh.**

### **Programme being received through Web casting at Sheopur, Madhya Pradesh**

During the interactive session the misconceptions of the participants were also clarified. The programme was received through web casting at BRCC, Sheopur, Madhya Pradesh while in Himachal Pradesh facilities available at the DIETs and State Project Office were utilized. The union territory of Daman and Diu is not having the facility of IGNOU receiving centre near it. All the principals of 107 schools of Daman and Diu participated in the training programme. In addition to them 2 BRCCs, 7 CRCCs, 2 ADPOs, 1 state programmer and 2 data operators participated in the Training programme. The participants in the union territory of Daman & Diu viewed the programme by utilizing the DTH facilities on Gynadarshan II. In Uttranchal the programme was received by utilizing the DTH facilities available at DPO and block level.

### **Participants at Khandwa, Madhya Pradesh**

#### **Participants**

As per the attendance received as on (22/12/10), 4 790 officers from different States & Union Territories participated in the programme. We are in the process of receiving attendance from different states by e-mail. The list of participants is given in *Annexure IV*.

**Resource Persons at the Learning End (IGNOU Studio, Delhi)**

### **Reading Material**

The revised DISE Data Capture Format was provided by the nodal officers to all the participants. The nodal officers circulated this material to the participants.

### **Programme Management**

Department of Educational Management Information System (EMIS) of the University conducted the programme. A team from Department of EMIS comprising of Prof. Arun C. Mehta, Mr. Naveen Bhatia and Dr. Savita Kaushal looked after the management of the programme. Mr. Deepesh Kumar Singh provided the secretarial assistance.

Question

(1) How to fill the information of last year attendance information

We have solve the problem the type is right or wrong please give the inform.

Eg:

Class	1st	2nd
Headcount	8 ✓	6 ✓
Attendance	2200 ✓	
Total of last year	2000 ✓	

In 1st of 10 Boys.

School working days last year = 220.

$$= 10 \times 220$$

$$= 2200$$

They all 10 students attendance is vacation that time.

1st student = 210

2nd student = 200

3rd " = 205

4th " = 208

5th " = 201

6th " = 198

7th " = 188

8th " = 92

9th " = 194

10th " = 204

~~194~~  
2000

This type of calculation is right or wrong. Please give us information

(4)

When you solve this problem please show the paper

Fax.

011-29536134(Question from Orissa)

1. Upper Primary Schools means School having Classes -VIII. So in this Case We have around 8000 Secondary only Schools ( all Management) in the state. Which has Class-VIII Sections too. In this case if we shall take such schools as High Schools having Upper Primary Sections then, whether all the teachers of this school will be counted or those teachers teaching Class -VIII will be counted for teachers
2. Whether SMC and PTA will be treated as same kind of School Management committee? Or those schools have formed School Management committee will be taken into account.
3. Whether Special Training means training through RBC, NRBC, for deprived children at Elementary level. Explanation needed in brief.

Suggestion

➔ Insert another Promotion table in DISE DCF as follows,

Table (Promotion)

Range of Mark	cl-I	cl-II	III	IV	upto cl-VIII
≤ 35%	B/G	B/G	B/G	B/G	
> 35% to ≤ 50%					
> 50% to ≤ 60%					
> 60%					
Total -					

With the help of this table we can compare the enrolment like, New admission (Tab-D) + Rep. (Table-H) + Promotion table = Total Enrolment

This table also help us to analyse the Learning achievement part of the school.

Thank you.
