Foreword

Development of a sound information system is critical for successful monitoring and implementation of any programme, particularly in social sectors. Design of a school information system was, therefore, accorded priority from the very beginning of the District Primary Education Programme (DPEP) in 1994, as a result of which the District Information System for Education (DISE) was developed by the National University of Educational Planning and Administration (NUEPA).

Importance of an Educational Management Information System (EMIS) was reiterated when *Sarva Shiksha Abhiyan* (SSA) was launched in 2001. SSA guidelines envisage development of a community-owned and transparent EMIS, and preparatory activities of the programme included substantial strengthening of MIS infrastructure in the States and UTs of the country.

I am happy to note that all the States & UTs of the country have now adopted DISE. The present volume presents *DISE Flash Statistics: Elementary Education in India: Progress towards UEE* for the year 2005-06. I am confident that the state-specific indicators presented on different aspects of UEE in the volume will be used in planning for good quality elementary education, and that data users, researchers and development planners interested in the Indian education system will find the volume useful. Based on the DISE data, an attempt has also been made for the first time to develop an Educational Development Index (EDI) which may be helpful in deciding future course of investment on elementary education in the country.

I must take this opportunity to thank UNICEF, Delhi, for consistently supporting EMIS activities since 1994, as well as NUEPA, especially Prof. Arun C. Mehta and his team, for bringing out the present publication.

From the Vice-Chancellor's Desk

It pleases me to present the *DISE Flash Statistics: Elementary Education in India: Progress towards UEE* which is based upon the 2005-06 data. Besides launching of one million plus School Report Cards, we have recently brought out significant publications namely *Elementary Education in India: Where Do We Stand: District Report Cards, State Report Cards, and Analytical Report for the year 2004-05* which contain a large number of indicators encompassing different aspects of universalisation of elementary education. The state-specific indicators that are being disseminated through the present publication are very rich in contents. In addition, we are also going to release shortly the District and State Report Cards as well as Analytical Report for the year 2005-06.

NUEPA is committed to provide professional and technical support to all the States and UTs. This has helped in improving the capacities of both state and district level MIS officers to a great extent. Further, we wish to intensify our capacity building activities in the years to come.

I thank the DISE team led by Prof. Arun C. Mehta for bringing out this publication which is of great significance. I hope that the researchers, policy makers, administrators and planners will find the publication both informative and useful.

New Delhi
January, 2007

(Ved Prakash)

Acknowledgements

For the last several years, NUEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country. The *DISE Flash Statistics: Elementary Education in India: Progress towards UEE* is based on the data received from all the States & UTs of the country for the year 2005-06. Besides an Educational Development Index, the publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates key indicators on all aspects of universalisation of elementary education in case of all the States & UTs of the country.

The *Flash Statistics: 2005-06* is based on the data received from as many as 1.12 million schools spread over 604 districts across 35 States & UTs. The study of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am extremely thankful to all the State Project Directors, the state level EMIS coordinators and district level programmers and data entry operators for timely supply of data.

I take this opportunity to thank UNICEF, Delhi, in particular Mr. Samphe Lhalungpa, Chief (Education) for consistently supporting EMIS activities ever since the inception of DISE and Ms Vrinda Sarup, Joint Secretary, Department of School Education & Literacy, Government of India, who played a crucial role in facilitating the implementation of DISE in various states.

I am thankful to Prof Ved Prakash, Vice-Chancellor, NUEPA, for his consistent encouragement and support.

I am also thankful to Shri M. K. Talukdar, Chief Consultant (MIS), TSG for providing professional support to states.

The contribution of Shri Naveen Bhatia, Computer Programmer and Shri Shalender Sharma, Project Associate Fellow, in database management, is gratefully acknowledged.

I am also thankful to Shri S. A. Siddiqui and Ms Alka Mishra for their efficient assistance and colleagues in the Publication Unit especially Shri Pramod Rawat, Deputy Publication Officer for timely bringing out the publication.

I hope that this publication will be of value to education planners, policy formulators and researchers. Any suggestions for improvement are most welcome. More comprehensive data on elementary education will be available soon through our forthcoming publications based on the DISE 2005-06 data.

**EDUCATIONAL
DEVELOPMENT
INDEX
(EDI)**

Variables Used in Computing Educational Development Index (EDI)

Component	Indicator
ACCESS	Percentage of Habitations not Served
	Availability of Schools per 1000 Population
INFRASTRUCTURE	Average Student-Classroom Ratio
	Schools with Student-Classroom Ratio \geq 60
	School without Drinking Water Facilities
	School with Boy's Toilet
	Schools with Girl's Toilet
TEACHERS	Percentage of Female Teachers
	Pupil-Teacher Ratio
	School with Pupil-Teacher Ratio \geq 60
	Single-Teacher Schools (in schools with more than 15 students)
	Percentage of Schools with 3 or less Teachers
	Teachers without Professional Qualification
OUTCOMES	Gross Enrolment Ratio - Overall
	Scheduled Castes : Gross Enrolment Ratio
	Scheduled Tribes : Gross Enrolment Ratio
	Gender Parity Index in Enrolment
	Repetition Rate
	Drop-out Rate
	Ratio of Exit class over Class 1 Enrolment (primary stage only)
	Percentage of Passed Children to Total Enrolment
	Percentage of Appeared Children passing with 60 per cent and above Marks

Note: Principal Component Analysis was used to assign loading factors before that indicators were normalised.

One Million+ School Report Cards

(www.schoolreportcards.in)

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). The project covers both Primary and Upper Primary schools/sections of all the districts of the country. What is more remarkable about DISE is that it has completely eliminated the time-lag in availability of educational statistics which has come down drastically from 7-8 years to less than a year at the national and only a few months at the district and state levels. DISE is supported by the Ministry of Human Resource Development and UNICEF.

The National University has successfully developed School Report Cards of more than 1 million Primary and Upper Primary schools/sections. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the Click of a Mouse.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
