a: Including SSK etc. institutions.
b: Excluding AIE centres.

@ State does not have such school type.
c: Clarification from state is awaited.

z May not present complete coverage of such schools/madarsas.
* Total may not add to hundred because of missing values and rounding of figures.

Including teachers teaching Grade VIII as a part of Secondary level has also been considered.

Average repetition and drop-out rates have been based on data of common schools. States showing negative rates have not been reported. In case of Upper Primary, the same represents average of Grade VI and VII.

***: Grade V enrolment minus repeaters in Grade V in 2009-10 as a percentage of 11 year old child population (based on Registrar General of India estimates).

. ++Computed based on the projected population provided by the Office of the Registrar General of India. States are advised to use more recent figures of child population obtained through HH Survey to workout the ratio. GER and NER for 2011-12 will be computed when 2011 census based child population is available.

One Million+ School Report Cards

(www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010, e-Governance & eINDIA 2010 National Awards and EMPI- Indian Express Indian Innovation Award 2012

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). The project covers both Primary and Upper Primary schools/sections of all the districts of the country. What is more remarkable about DISE is that it has completely eliminated the time-lag in availability of educational statistics which has come down drastically from 7-8 years to less than a year at the national and only a few months at the district and state levels. DISE is supported by the Ministry of Human Resource Development and UNICEF.

The National University has successfully developed School Report Cards of more than 1.3 million Primary and Upper Primary schools/sections. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the Click of a Mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the Country.
