P R E F A C E

The Directorate of Economics and Statistics, Government of Rajasthan has conducted a study and brought out a report on the “Post Enumeration of 5 percent Sample Checking of DISE Data in three Districts of Bharatpur, Jalore & Udaipur in Rajasthan : 2011-12”. The publication is titled, “**Post Enumeration of 5 percent Sample Checking of DISE Data in three Districts of Bharatpur, Jalore & Udaipur in Rajasthan: 2011-12**”. This publication presents data on findings of a 5 percent sample of schools of DISE data in three districts of Rajasthan for the academic year 2011-12. It has also been compared with the DISE DCF data on some selected indicators based on the availability of data from both the sources to understand level of variation between the two sets of data.

I would like to take this opportunity to thank the officers and staff of Directorate of Economics and Statistics for their cooperation, support, sincere and dedicated efforts and the NGO, Jankalyan Evam Paryavaran Sudhar Samiti, Jaipur for bringing out the fourth in the series of research publications under the technical guidance of the Demographer from UNFPA.

Executive Summary

Executive Summary

Introduction to Rajasthan

Rajasthan is situated in the northern part of India. It is the largest State in India by area constituting 10.4 percent of the total geographical area of India and it accounts for 5.5 percent of population of India. Topographically, deserts in the State constitute a large chunk of the land mass, where the settlements are scattered and the density of population is quite low. It is administratively divided into 7 divisions, 33 districts and 44,672 villages as of Census 2011. The State has a population of 6.86 crore according to the provisional totals of Census 2011.

According to the population projections by the technical group on population projections constituted by the National Commission on Population, population Projections for India and States 2001-2026, the projected population of Rajasthan as on 1st July, 2012 is 6.9250 crore. The decadal growth rate of population of Rajasthan is 21.44 percent compared to 17.64 percent in case of India. In the state, there is a considerable decline in the decadal growth rate from 28.41 during 1991-2001 to 21.44 during 2001-2011. In the last century and a decade (1901 to 2011), Rajasthan's population has grown by more than six times from 1.03 to 6.86 crore compared to India's population, which has seen a growth of more than five times, during the same period. The density of population of the State is quite low at 201 persons per sq. km. with large scale district level variations of 17 persons per sq. km. in Jaisalmer to 598 persons per sq. km. in Jaipur. The State's literacy rate stands at 67.06 percent. The overall sex ratio is of the tune of 926 females per 1,000 males and the sex ratio amongst the 0-6 year population is 883 females per 1,000 males. The sex ratio at birth in the State is also masculine in nature at 877 female births per 1,000 male births, which is lower than that of India (905 female births per 1,000 male births) (*SRS, 2008-10*). It is one of the High Focus States under National Rural Health Mission (NRHM, 2005-2012).

According to the first ever human development report published by the Planning Commission in 2002, Rajasthan was among the low HD states with the HDI in 1981, 1991 and 2001, with ranks of 12 (0.256), 11 (0.347), and 9 (0.424), respectively among the 15 bigger states. According to the recently released India Human Development Report 2011: Towards Social Inclusion, the HDI rank of Rajasthan has declined from a rank of 14 (0.387) in the year 1999-2000 to 17 in the year 2007-08 (0.434) among 29 states, where seven north eastern states have been combined excluding Assam. The Infant Mortality Rate (IMR), which is considered to be one of the most sensitive indicators of human development lies at 55 infant deaths per 1,000 live births compared to 47 per 1,000 live births in case of India (*SRS, 2010*). The Maternal Mortality Ratio of the State is 318 maternal deaths per 100,000 live births compared to 212 maternal deaths per 100,000 live births in case of India (*SRS, 2007-09*). It ranks third highest amongst the major States in India. The

percentage of institutional deliveries is also dismally low. The Total Fertility Rate (TFR) is also at a high level at 3.1 births per woman compared to 2.5 at the all India level (*SRS, 2010*) making the National Population Policy (NPP) 2000 goal of reaching the replacement level of fertility of 2.1 TFR and population stabilization a far-fetched dream. According to the projection report of Census 2001 with projections from 2001-2026, Rajasthan is projected to achieve replacement level TFR by 2021. The overall life expectancy of the State is 62.0 years with 61.5 years for males and 62.3 years for females (*SRS based abridged life tables, 2002-2006*). It has gained 12.8 years between 1970-75 and 2002-06 compared to 13.8 years gain in case of India during the same period.

Background of the Study

The Directorate of Economics and Statistics has been commissioned to conduct a Study on the 5% post enumeration check of the DISE data. The District Statistical Officers (DSOs) and Assistant Statistical Officers (ASO) were entrusted with the task of collecting data by canvassing a semi-structured schedule called the special Data Capture Format (DCF). The reference period for the DISE data and the post enumeration survey (PES) are the same i.e. September 30, 2011 for the districts of Jalore, Bharatpur and Udaipur for the year 2011-12. In the present report, data for the three districts of Bharatpur, Jalore and Udaipur for the year 2011-12 has been presented.

In total, 603 schools were covered in the three districts of Jalore, Bharatpur and Udaipur of Rajasthan, out of which 452 were Government schools and 151 schools were Private. The following findings are based on these 5% sample of schools covered in Post Enumeration Survey of special DCF data. Two Private schools were found to be closed on the day of survey. So, this data is based on 601 schools, among which 452 were Govt. schools and 149 schools are private.

Percentage of variation between 5% PES and DISE data

There seems to be some variation between the regular DISE data captured by the DISE DCF and the special DCF of PES data. The two data sets have been compared on some indicators of school management, enrolment, pupil teacher ratio and availability of certain facilities and it is observed that there is variation between the two sets of data.

With regards to School management, variation has been found between the two sets of data. The maximum variation is observed in case of the management of unrecognized schools followed by those managed by tribal welfare department and others. The variation in the number of schools managed by local bodies is observed in the fact that 279 school have been reported by the survey (PES) compared to 258 schools reported by DISE DCF data.

Variation is also observed with respect to school type with 325 primary schools being reported by PES compared to 328 schools reported in DISE data.

In case of the number of pupils and teachers in the three districts, the variation in case of number of students, ranges from 1.7 percent in case of Jalore to 4.9 percent in Udaipur and in case of number of teachers, 3.6 percent in case of Bharatpur to 14.1 percent in case of Jalore.

In case of availability of facilities in schools, the variation is 9.5 percent, 11.1 percent, 4.5 percent availability of playground, availability of girls' toilet and availability of electricity in the schools respectively.

The overall percentage of variation computed between the two sets of data based on the data from the above indicators available from the two sets of data reveals a variation of 0.03 percent.

Total Enrollment in the selected schools

Overall, in the three districts, the total enrollment upto upper primary in 2011-12 was 67,662, out of which 38,448 were boys and the rest 29,224 were girls. In Bharatpur district, the total enrollment upto upper primary in 2011-12 was 23,913, out of which, 13,610 were boys and the rest 10,303 were girls. In Jalore district, the total enrollment upto upper primary in 2011-12 was 18,754, out of which 10,803 were boys and the rest 7,951 were girls. In Udaipur district, the total enrollment upto upper primary in 2011-12 was 24,995 out of which, 14,035 were boys and the rest 10,960 were girls.

Enrollment of girls per 1,000 boys

Overall, in the three districts of Rajasthan, the number of girls enrolled per 1,000 boys in 2010-11 was 757. This figure is 736 for Bharatpur, 781 for Jalore and 760 for Udaipur. Overall, in the three districts of Rajasthan, the number of girls per 1,000 boys enrolled in 2011-12 was 845. Among the three districts, this figure was 924 for Bharatpur, 800 for Jalore and 817 for Udaipur. It is lowest in case of Jalore. The data reveals that, the total number of girls enrolled per 1,000 boys, in the three districts has increased from 757 in 2010-11 to 845 in 2011-12. The percentage increase in girls' enrollment per 1,000 boys is highest in Bharatpur district at 25.5 percent.

Enrollment of SC and ST

With regards to the enrollment by social category, the percentage of SC has decreased while the percentage of ST has increased between 2010-11 and 2011-12, which is a progressive sign.

Filled up position of Teachers

Overall, the percentage of teachers post filled up against the total post sanctioned in the three districts, is 85.83 percent, out of which, 91.66 percent teachers post filled up in private school and 81.66 percent in government schools. Overall, the percentage of teachers post filled up out of the total post sanctioned, is highest in **Bharatpur** 91.47 percent and lowest in **Udaipur** (83.24 percent). In case of private schools, this figure is highest in **Bharatpur** (100.00 percent) and lowest in **Udaipur** (87.02 percent). In case of government schools, this figure is highest in **Bharatpur** (86.62 percent) and lowest in **Jalore** (78.99 percent).

Type of schools for Girls or boys only or Co-education

Overall, in the three districts, 95.01 percent schools are Co-Ed, 1.66 percent schools are only for boys and rest 3.33 percent are only for girls. The highest percent of Co-Ed schools was reported in **Bharatpur** (95.11 percent) and lowest in **Udaipur** (94.94 percent). The highest percent of schools which are only for boys is in **Udaipur** (2.72 percent) and lowest in **Jalore** (0.63 percent). Similarly the highest percent of schools, which are only for girls, are in **Jalore** (4.38 percent) and lowest in **Udaipur** (2.33 percent).

Gender – wise teachers employed

In the three districts overall, 68.60 percent male and 31.94 percent female teachers are working other than the headmaster. In primary, it is 65.91 percent for male and 34.49 percent for female, whereas in upper primary, it is 71.36 percent for male and 28.64 percent for female.

Teachers present on the day of survey

Overall, 68.78 percent teachers were present on the day of survey out of total working teachers. The highest percent of teachers were present in **Bharatpur** 96.54 percent followed by 61.56 percent schools in **Udaipur** and the lowest presence was in case of **Jalore** district 53.04 percent.

Infrastructure facilities

With regards to the status of school building, in the Government schools of the 3 districts, the highest percent of schools are functioning in government building (98.01 percent) followed by government on rent (1.33 percent) and some are without building (0.66 percent).

With regards to the status of school building, in the Private schools of the 3 districts, the highest percent of schools are functioning in private on rent (69.13 percent) followed by Private building (30.87 percent).

Status of School Building

With regards to the type of school building, out of the total sample of 601 schools in the three districts, 91.85 percent are pucca, 7.49 percent are partially pucca and 0.67 percent are kuccha.

Availability of rooms by condition

In Government Schools, out of the total rooms available in the school in the 3 districts, 68.85 percent are in good condition, 18.85 percent need minor repairs, 9.75 percent need major repairs and 2.54 percent are not in a usable condition. In Private Schools, out of the total rooms available in the school in the 3 districts, 89.15 percent are in good condition, 9.24 percent need minor repair, 1.53 percent need major repair and 0.08 percent are not in a usable condition. In total, out of total rooms available in 601 sampled schools in the 3 districts, 75.20 percent are in good condition, 15.85 percent need minor repair, 7.18 percent need major repair and 1.77 percent are not in a usable condition. Overall, in the 3 districts, the average number of classrooms is 4.76. This is highest in **Bharatpur** (4.90) followed by **Jalore** (4.75) and it is lowest in **Udaipur** (4.67).

Availability of Boundary Walls

Overall, in the three districts, 52.88 percent Government school and 67.11 percent private schools have permanent boundary walls in the schools. In case of temporary boundary walls, it is 20.13 percent for Government schools and 15.44 percent for private Schools, whereas in 26.99 percent Government schools and 17.45 percent private schools, no boundary wall is present.

Other Facilities available in schools

Playground

With regards to the availability of playgrounds in the schools, overall, 36.50 percent Government and 59.60 percent private schools have this facility. For Government schools, it is highest in **Jalore** (43.33 percent) followed by **Bharatpur** (36.96 percent) and lowest in **Udaipur** (31.96 percent). For private schools, the highest percent of schools in which playground facility is available, was in **Jalore** district (65.00 percent) followed by **Udaipur** (57.14 percent) and lowest in case of **Bharatpur** (56.52 percent).

Availability of Girls' toilet

It is evident that, out of the total sample of 601 schools, in 86.06 percent Government and 77.85 percent private schools girls' toilets are available. In case of Government schools, it is highest in **Jalore** (90.00 percent) followed by **Udaipur** (85.05) & lowest in **Bharatpur** (84.06 percent), whereas in case of Private Schools, it is highest in **Bharatpur** (86.96 percent) followed by **Jalore** (85.00 percent) and lowest in **Udaipur** (66.67 percent).

Percentage of Single Teacher Schools:

Out of the total sample of 601 schools, in 21.80 percent schools, only a single teacher is working. It is highest in **Jalore** (30.63 percent) followed by **Udaipur** (27.24 percent) and lowest in **Bharatpur** (6.52 percent).

Electricity

Out of the total sample of 601 schools, only in 29.20 percent Government and 65.73 percent private schools electricity is available. In **Jalore** district, it is 32.50 percent for Government and 37.50 percent for private schools for **Bharatpur** district, it is 32.61 percent for Government and 73.91 percent for private Schools, Whereas, in case of **Udaipur** district, it is 24.74 percent for Government and 77.78 percent for private schools.

Drinking water

Overall, in the 3 districts in 84.29 percent Government and 96.69 percent private Schools, drinking water facility is available. For Government schools, it is highest in **Udaipur** (89.18 percent) followed by **Jalore** (89.17 percent) and it is lowest in **Bharatpur** (73.19 percent), whereas in case of private Schools, it is highest in **Udaipur** (100.00 percent) followed by **Jalore** (100.00 percent) and lowest in **Bharatpur** (93.48 percent). Out of the total sample of 601 schools, the most popular source of drinking water in Government schools, is hand pump (52.65 percent) followed by tap water (16.37 percent). Whereas in case of private Schools, tap water is the most popular source of drinking water (44.30 percent) schools, followed by hand pump (29.53 percent).

Computer Facility

Out of the total sample of 601 schools, in 18.14 percent Government and 49.67 percent private Schools, computer facility is available. In case of Government schools it is highest in **Jalore** (41.67 percent) followed by **Bharatpur** (12.32 percent) and lowest in **Udaipur** (7.73 percent). In case of private schools, it is highest in **Jalore** (70.00 percent), followed by **Udaipur** (53.97 percent) and it is lowest in **Bharatpur** (28.26 percent).

Furniture

Overall, in the 3 districts in 63.27 percent Government schools, chairs are not available to students, in 13.27 percent schools, chairs are available to some students and in 23.45 percent schools, chairs are available to all students. Whereas in case of private schools, in 16.78 percent schools, chairs are available to some students, in 72.48 percent, chairs are not available to students and in 10.74 percent of schools, chairs are available to all students.

Other Important aspects

Some other aspects, which were also investigated, are as follows:

- Overall, in the 3 districts, in 93.14 percent government and 76.10 percent private schools, attendance register was properly maintained.
- In the 3 districts, in 99.12 percent government and 91.82 percent private schools, school report card was available.
- Overall, in the 3 districts, 98.67 percent government and 91.19 percent private schools were found to be maintaining records properly.
- Overall, in the 3 districts, in 95.26 percent government and 73.76 percent private schools, DISE format was available.
- Overall, in the 3 districts, the Student-Class room ratio is, 24.39. For government schools, this ratio is 23.49, whereas for private schools, this ratio is 26.23. Among the three districts, this ratio is highest in **Jalore** (26.83) followed by **Bharatpur** (25.22) and lowest in **Udaipur** (22.23). For government schools, this ratio is highest in **Jalore** (24.36) followed by **Udaipur** (23.75) and lowest in **Bharatpur** (22.98).
- For private schools, this ratio is highest in **Jalore** (33.24) followed by **Bharatpur** (29.31) and lowest in **Udaipur** (20.29). Overall, in the 3 districts, the Pupil Teacher ratio is 30.22. For government schools, this ratio is 34.11 whereas, for private schools, this ratio is 25.04. Among the three districts, this ratio is highest, in **Jalore** (38.76) followed by **Bharatpur** (27.92) and lowest in **Udaipur** (27.53). For government schools, this ratio is highest in **Jalore** (27.53) followed by **Udaipur** (36.47) and lowest in **Bharatpur** (27.18). For private schools, this ratio is highest in **Jalore** (35.25) followed by **Bharatpur** (29.03) and it is lowest in **Udaipur** (17.95).

Recommendations

The following are some of the recommendations based on field experience:

- The system of DISE needs to be popularized by the School education department by making it usable at the district administration level to identify low performing panchayat samitis and panchayats and by the schools.
- There needs to be periodic dissemination of data and feedback needs to be taken from the community level.
- Strict Monitoring of the DISE DCF formats needs to be done to ensure quality of data and reduce variation.
- The DISE data should be made available in excel format on the website, so that further analysis could be done on it easily.

- The focus needs to be on other indicators in addition to Gross and Net enrolment ratio.
- The focus needs to be on retaining girls in the schools as there is an increase in the drop out of girls.
- The panchayati raj members need to be sensitized to check the DISE DCF data, monitor and suggest measures for improvement.

Chapter 1

Education is one of the most important factors influencing the development of a nation. It is a decade, since the international community adopted the following six Education for All (EFA) goals in Dakar, Senegal, during April 26-28, 2000:

1. expanding and improving comprehensive early childhood care and education, especially for the most vulnerable and disadvantaged children;
2. ensuring that by 2015 all children, particularly girls, children in difficult circumstances and those belonging to ethnic minorities, have access to and complete free and compulsory primary education of good quality;
3. ensuring that the learning needs of all young people and adults are met through equitable access to appropriate learning and life skills programmes;
4. achieving a 50 percent improvement in levels of adult literacy by 2015, especially for women, and equitable access to basic and continuing education for all adults;
5. eliminating gender disparities in primary and secondary education by 2005, and achieving gender equality in education by 2015, with a focus on ensuring girls' full and equal access to and achievement in basic education of good quality;
6. improving all aspects of the quality of education and ensuring excellence of all so that recognized and measurable learning outcomes are achieved by all, especially in literacy, numeracy and essential life skills.

Worldwide consensus has been reached to declare Universalization of Primary Education as the second MDG for achievement by 2015 only after eradication of poverty, which is the first goal. As mandated by the 86th Amendment to the Constitution of India making free and compulsory elementary education to children of ages 6-14 a fundamental right, the Government of India launched, the '*Education for All*' (*Sarva Shiksha Abhiyan*)' programme to achieve the goal of Universalization of Elementary Education of satisfactory quality by 2010. In spite of significant achievements in education sector, there are many pitfalls. Most important constraints in the education system are quantitative expansion, increasing privatization particularly after the globalization in 1990 and increase in inequality and exclusion of the vulnerable groups of population in education. There are differences in similar data from two/three different sources which actually are not available easily. It was strongly felt by the policy makers, planners and decision makers to make the data easily accessible and available in a more user friendly manner.

The introduction of DISE educational Management and Information System is an innovative step in this direction. DISE is a system for the collection, integration, processing, maintenance and dissemination of data and information to support in decision making, policy analysis and formulation, planning, monitoring and management of data at all levels of an education system.

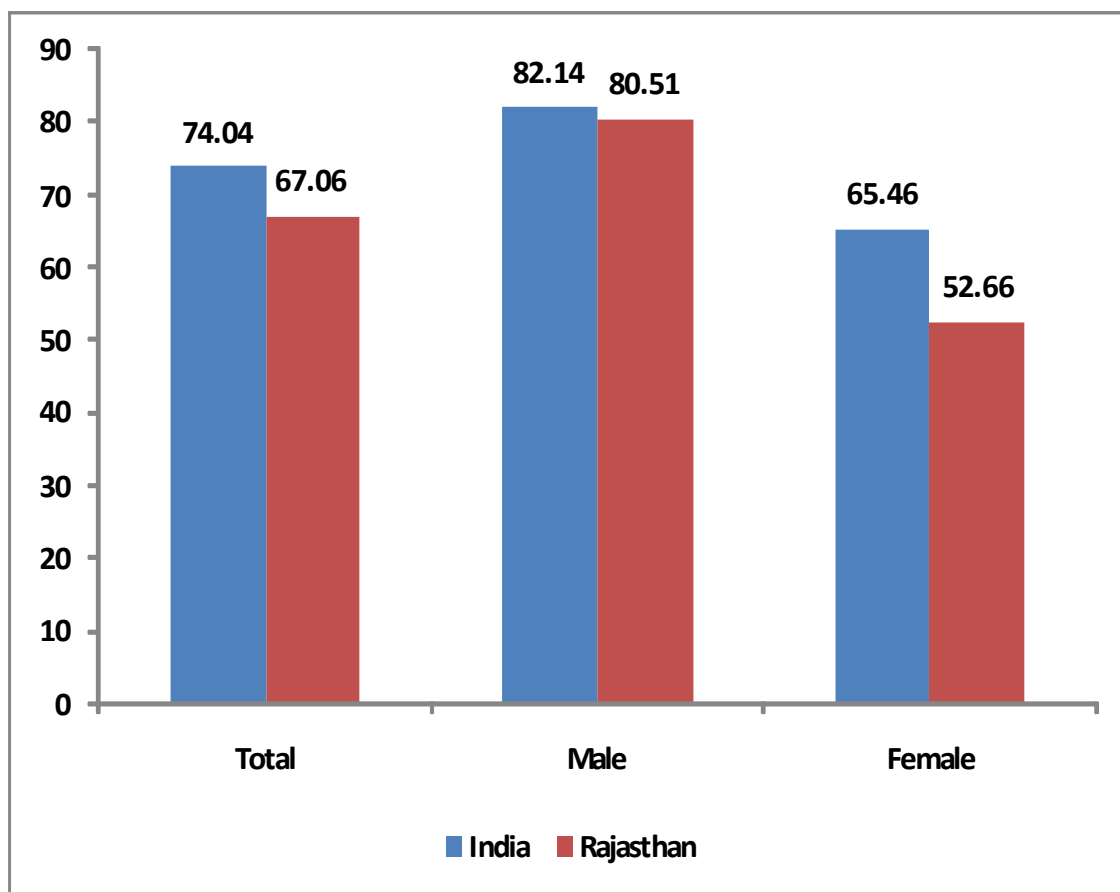

The State Government is committed to achieving the national goals and has been steadily increasing the budgetary allocation for education. The State has also made significant strides in higher and technical education.

The Status of Literacy and Education in India and Rajasthan

Education and Literacy are the two most important factors affecting the progress of a nation and State. It is such an important indicator that it has been agreed upon and focused by a collective of nations as the second most important Millennium Development Goal out of the eight goals related to poverty, health, women empowerment, environment sustainability and Global Partnership for Development.

Literacy rate in Census 2011 has been computed as the number of persons literate 7 and above years of age. According to the provisional results of Census 2011, the literacy rate of India stands at 74.04 percent. Amongst all the States, it is highest in case of Kerala (93.91 percent) and lowest in case of Bihar (63.82 percent). The literacy rate of Rajasthan is 67.06 percent. The total, male and female literacy of Rajasthan are lower than the national average.

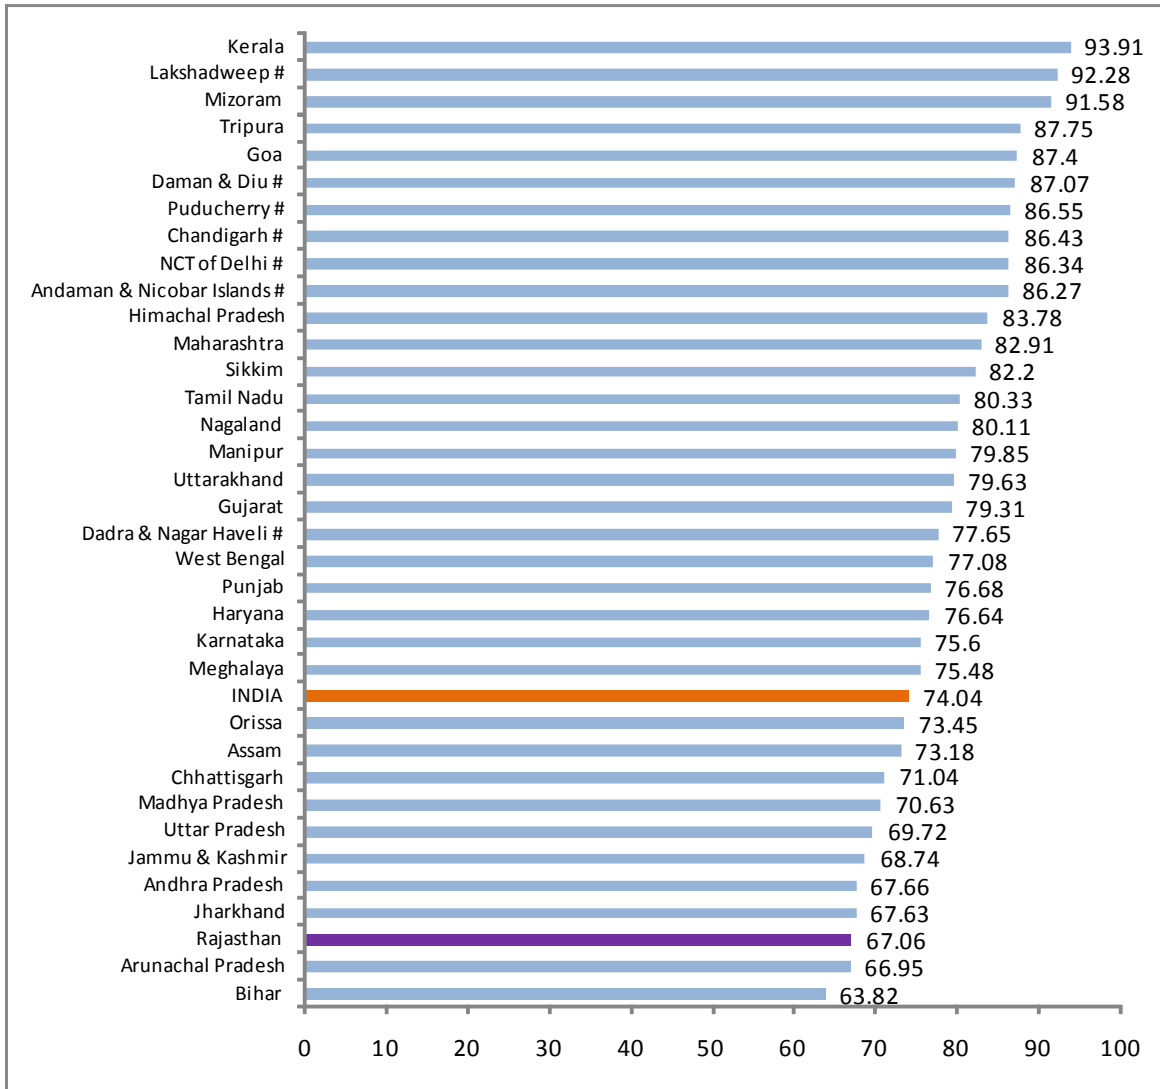

Figure 1: Literacy Rates in India and Rajasthan by Gender, Census 2011

Source : Census of India, 2011 (Provisional)

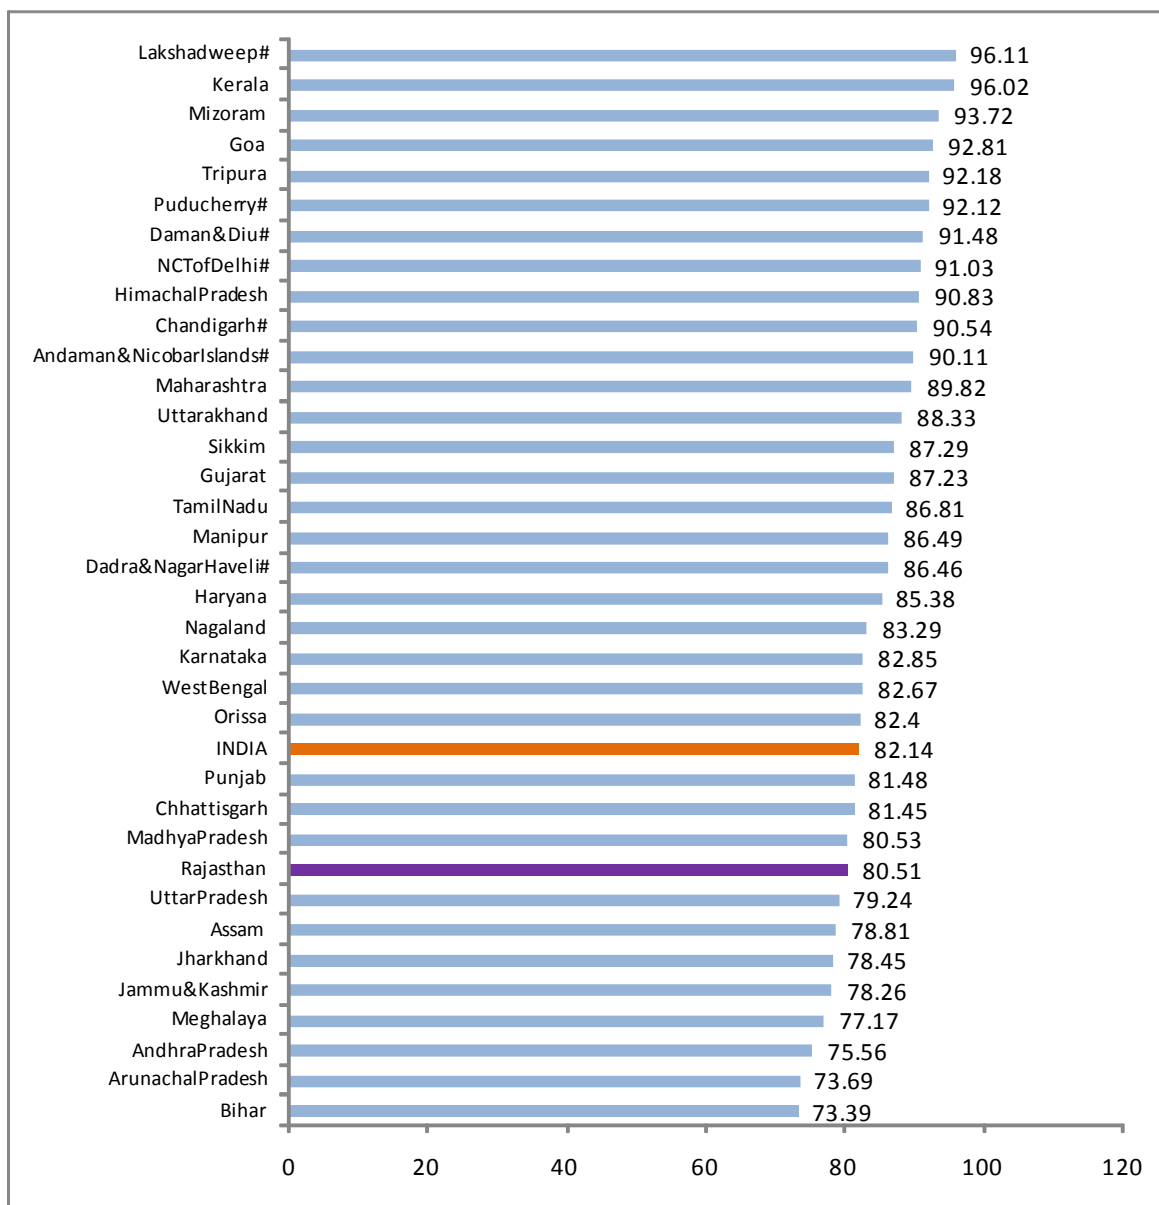

Gender-wise, there is a big gap between male and female literacy. In total literacy, Rajasthan ranks 33rd amongst the 35 states and union territories and in case of male and female literacy it ranks 27th and 35th respectively. **Among the States, Rajasthan is at the bottom in terms of the female literacy rate (Figure 1, 2,3 & 4).**

Union Territories and NCT

The Gross enrollment ratio for primary education for the period of 2011-12 in the State is 116.14 compared to 118.62 in case of India according to the report by NUEPA. The net enrollment ratio for primary education for the period of 2010-11 in the State is 87.31 compared to 99.89 in case of India according to the same report (Table 1).

Table 1 : Literacy and Enrollment in Rajasthan and India

Indicators	Year	Rajasthan	India
Literacy Rate (persons of age 7+) Census 2011*	2011	67.06	74.04
Gross Enrollment Ratio (I-V class)**	2010-11	116.14	118.62
Net Enrollment Ratio (I-V class)**	2010-11	87.31	99.89

Socio-demographic Profile of Rajasthan and Districts

Population

Rajasthan ranks eighth amongst all the States in India with a population of 6.86 crore. Population in Rajasthan has increased from 1.03 crore in 1901 to 6.86 crore in 2011 in a span of 110 years. It is projected to reach about 8.2 crore by 2026. By another set of projections it is projected to reach 16.8 crore by 2101 under scenario A, where TFR is assumed to be at replacement level of 2.1 and it is projected to be 14.7 crore under scenario B with a TFR of 1.85¹. In terms of decennial growth rate (2001-2011), Rajasthan's growth rate (21.44 percent) is higher than India (17.64 percent) (*Census Info Version 2, ORGI, Government of India*). Amongst the districts in Rajasthan, Jaipur is the largest by population at 66.63 lakh and Jaisalmer is the smallest at 6.72 lakh. In terms of decennial growth rate amongst the districts in Rajasthan, Barmer has the highest decennial growth rate (2001-11) of 32.55 percent and Ganganagar has the lowest decennial growth rate (10.06 percent).

Population Density in Rajasthan

Population density is the number of persons inhabiting in an area of one sq. km. According to Census 2011, the Population density of India is 382 persons per sq. km. Amongst the States in India, Bihar has the highest density of population at 1,102 persons per sq. km. and Arunachal Pradesh has the lowest density with 17 persons per sq. km. The population density of Rajasthan is 201 persons per sq.km, little less than half of that of India. Amongst the districts in Rajasthan, Jaipur is the densest with 598 persons per sq.km. and Jaisalmer is the least dense with only 17 persons per sq.km. The low density of population in the State is also related to issues of service delivery.

¹Source : *The Future Population of India : A Long Range Demographic view, Population Foundation of India and Population Reference Bureau, 2007*

Rural-Urban Distribution

Residence in terms of rural or urban location is an important background characteristic of a population. Urban areas usually have concentrated population with better access to resources and facilities resulting in better indicators. According to Census 2011, India has 68.84 percent rural population and 31.16 percent urban population. Amongst all the States, Himachal Pradesh has the highest percentage of rural population (89.96 percent) and NCT of Delhi has the least percentage of rural population at 2.50 percent. In Rajasthan, the percentage of rural population (75.11 percent) is higher than India. Amongst the districts in Rajasthan, Dungarpur has the highest percentage of rural population at 93.61 percent followed by Banswara (92.89 percent). Kota has the lowest percentage of rural population at 39.70 percent followed by Jaipur (47.49 percent). Kota is the most urbanized district in Rajasthan.

Infant Mortality Rate (IMR)

One of the most sensitive indicators of health of a nation namely IMR, which is an important indicator of the fourth MDG of reducing child mortality, is at a high level in the State. The MDG target 4A is to reduce by two-thirds, between 1990 and 2015, the under-five mortality rate. The current IMR stands at 55 infant deaths per 1,000 live births compared to 47 infant deaths per 1,000 live births for India (SRS, 2010). Amongst all the States, Madhya Pradesh has the highest IMR (62 infant deaths per 1,000 live births) and Goa has the lowest IMR (10 infant deaths per 1,000 live births).

Maternal Mortality Ratio (MMR)

One of the most important indicators of the fifth MDG of improving maternal health is the maternal mortality ratio. The MDG target 5A is to reduce by three quarters (75 percent), between 1990 and 2015, the Maternal Mortality Ratio. According to the latest special bulletin on maternal mortality, 2007-09, the MMR of India is 212 maternal deaths per 100,000 live births (95 percent Confidence Interval (CI) 198-226) and that of Rajasthan is 318 maternal deaths per 100,000 live births (95 percent CI 251-384) (*Special Bulletin on Maternal Mortality in India 2007-09, SRS, ORGI*). Amongst the States in India, Rajasthan ranks third after Assam (390 maternal deaths per 100,000 live births) followed by Uttar Pradesh/ Uttarakhand (359 maternal deaths per 100,000 live births). Kerala has the lowest MMR at 81 maternal deaths per 100,000 live births amongst the bigger States. Rajasthan has registered a decline of 37 percent from 508 in 1997-98 to 318 in 2007-09 compared to 47 percent in case of India during the same period from a high of 398 in 1997-98 to 212 in 2007-09 (SRS, 2007-09). The eleventh plan goal is to achieve a level of 148 maternal deaths per 100,000 live births for Rajasthan (*Eleventh Five Year Plan (2007-12), Vol. 2, Social Sector, Planning Commission*).

Status of Literacy and Education in Rajasthan and Districts

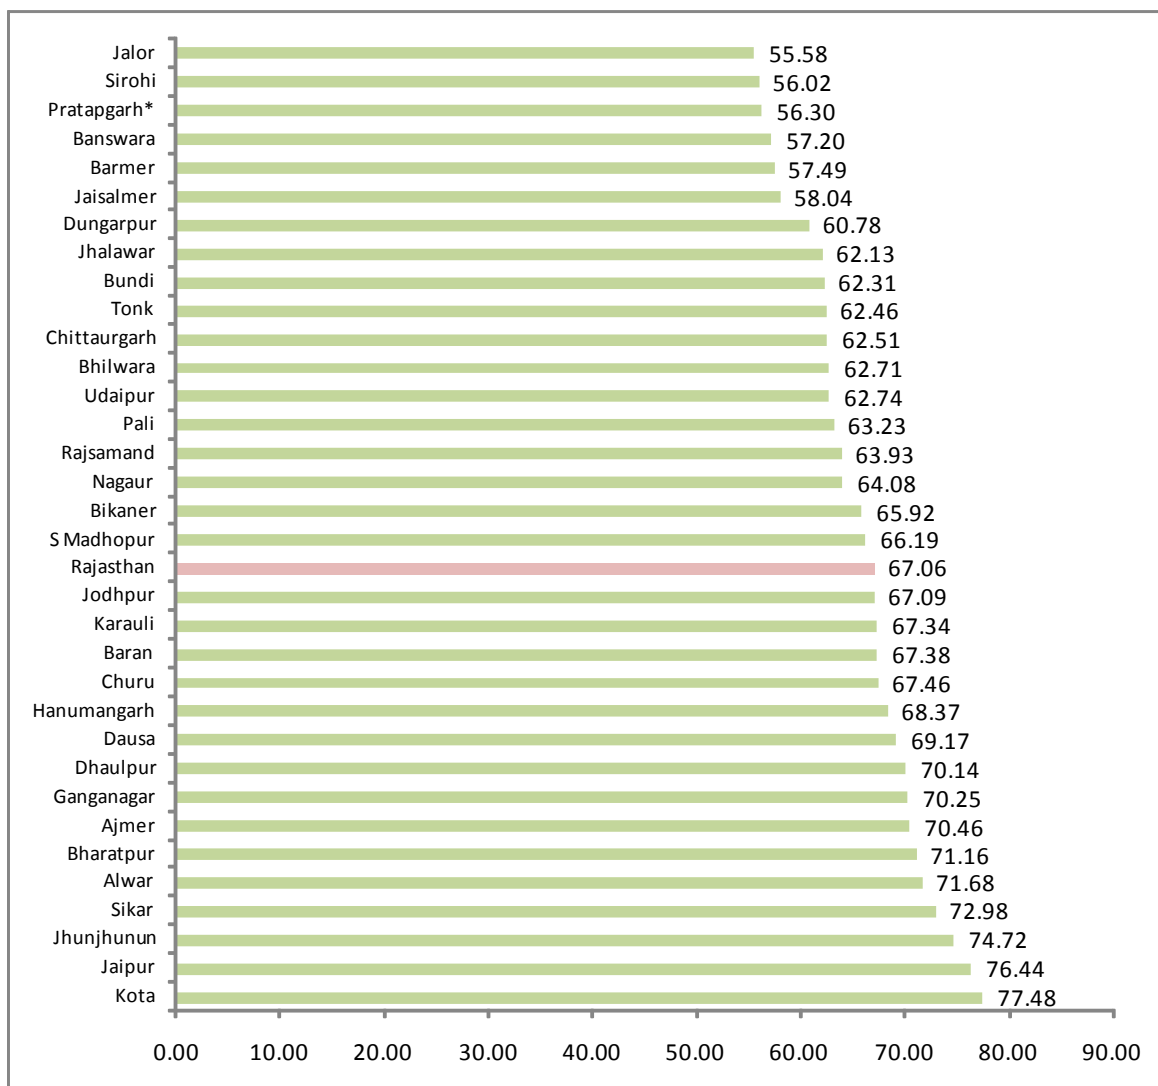

As per the 2011 Census, Rajasthan recorded a literacy rate of 67.06 percent as compared to 38.6 percent in the year 1991, registering a net absolute increase of 29 percent during the decade 1991-2011. The subsequent figures for male and female literacy rates are 75.7 and 43.9 percent respectively. Amongst the three districts in Rajasthan, Bharatpur has the highest literacy rate (71.16 percent) and Jalore has the lowest literacy rate (55.58 percent) (*Census 2011*).

Table 2 : Socio-Demographic Profile of the Districts in Rajasthan arranged in alphabetic order

State/ District	Population, Census 2011 (in lakh)	% of Total Population	Total Literacy Rate, Census 2011	Male Literacy Rate, Census 2011	Female Literacy Rate, Census 2011	Area, Census 2001 (in 1,000 Sq. Km.)	Population Density, Census 2011 (Persons per Sq. Km.)	Decennial Growth Rate (2001-11) (in percent)
Rajasthan	686.21	-	67.06	80.51	52.66	342.2	201	21.44
Bharatpur	25.49	3.71	71.16	85.70	54.63	5.066	503	21.39

**Figure 5 : Total Literacy Rates in the Districts in Rajasthan, Census 2011
(in %)**

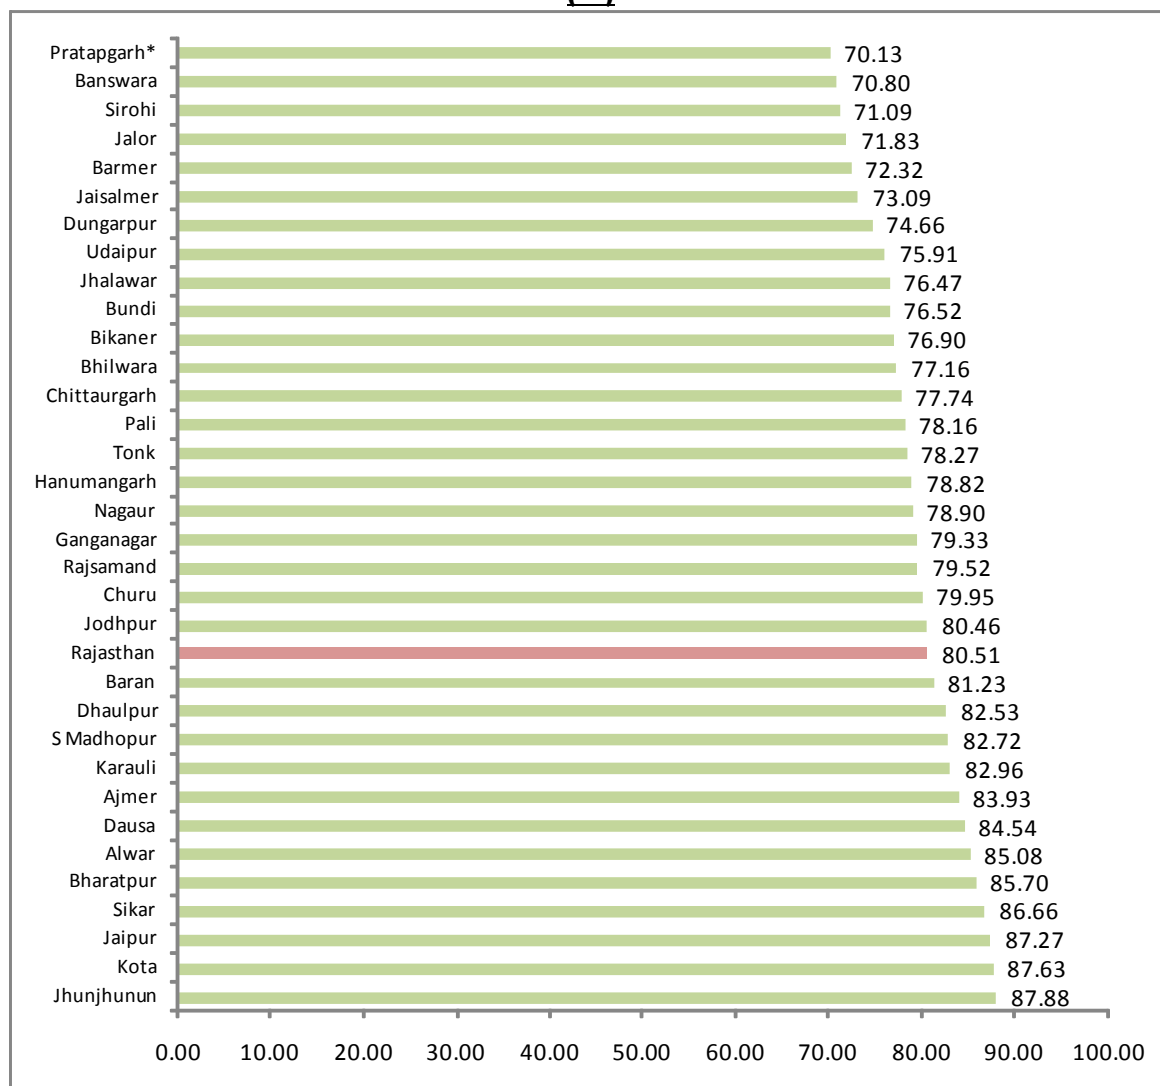

Source : Census 2011 Provisional

*New district created after 2001 Census

The total literacy rate according to Census 2011 varies from 55.58 percent in case of Jalore district to 77.48 percent in case of Kota district.

Figure 6 : Male Literacy Rates in the Districts in Rajasthan, Census 2011 (%)

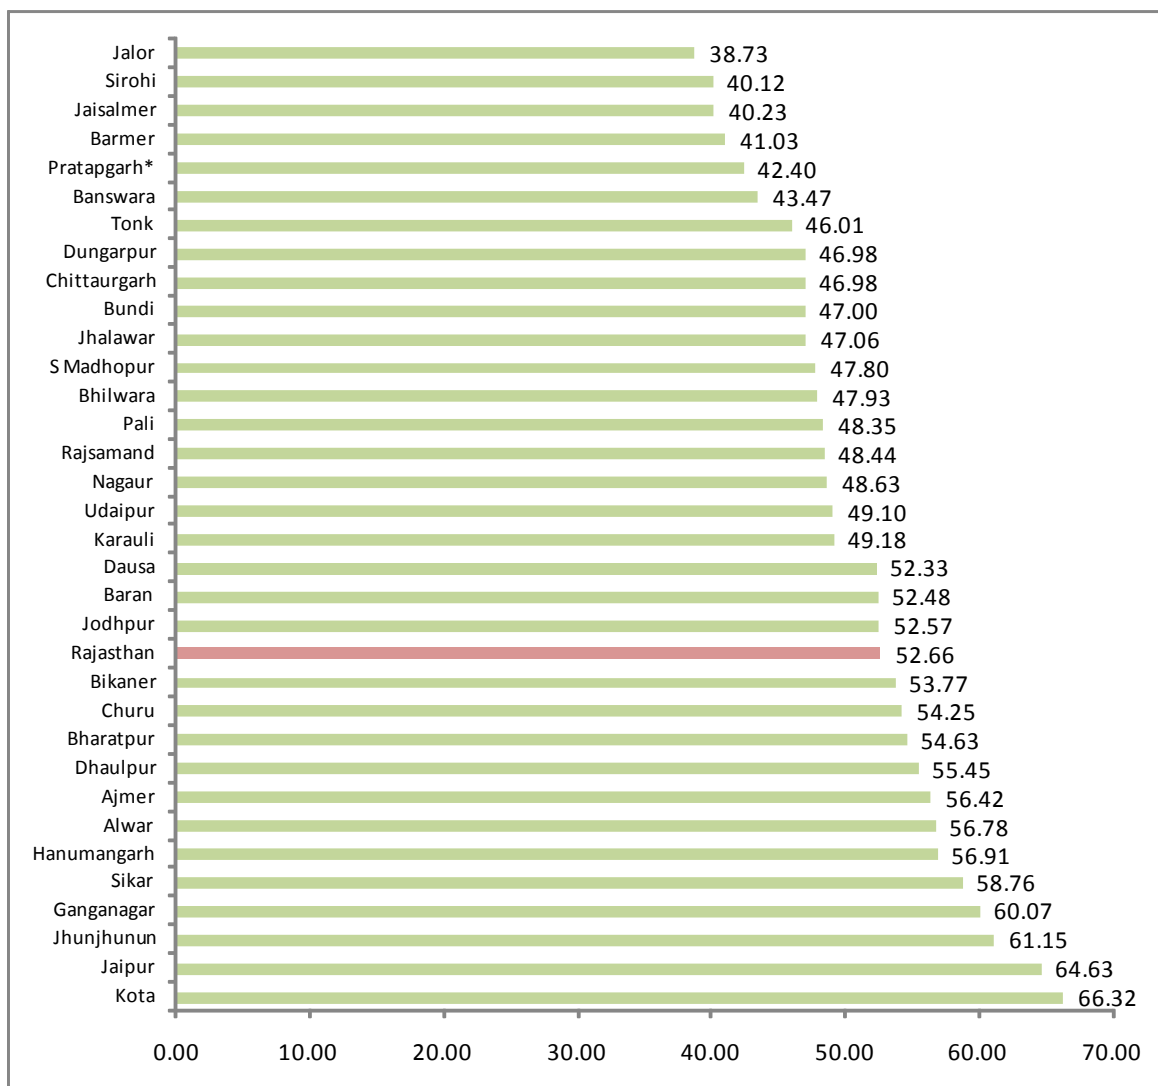

Source : Census 2011 Provisional

*New district created after 2001 Census

The Male literacy rate according to Census 2011 varies from 70.13 percent in case of the newly formed Pratapgarh district to 87.88 percent in case of Jhunjhunun district.

Figure 7 : Female Literacy Rates in the Districts in Rajasthan, Census 2011 (%)

Source : Census 2011 Provisional

*New district created after 2001 Census

The Female literacy rate according to Census 2011 varies from 38.73 percent in case of Jalore district to 66.32 percent in case of Kota district.

Table 3 : Percentage of Female Literacy in the selected Districts in Rajasthan arranged in alphabetic order (in percent), Census 2011

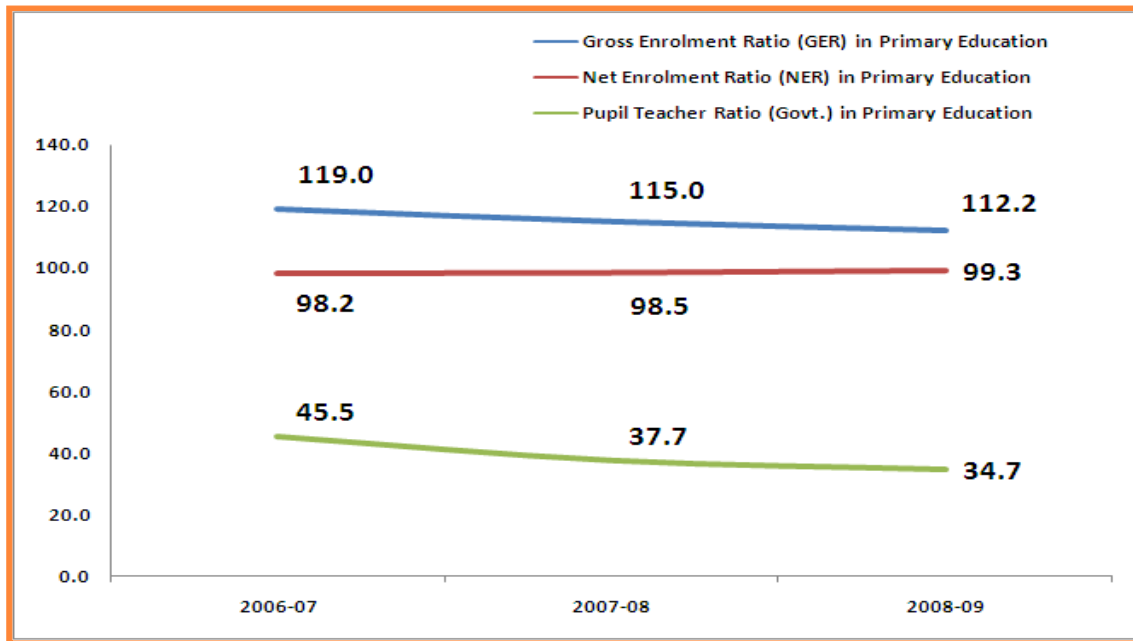

<i>Rajasthan/ District</i>	<i>% of Female Literacy, Census 2011</i>
Rajasthan	52.66
Bharatpur	54.63
Jalore	38.73
Udaipur	49.10

Source : Census of India, 2011 (Provisional)

The Net enrollment ratio for primary education is an MDG indicator, which has increased from 98.22 percent in 2006-07 to 99.25 percent in 2010-11. The pupil teacher ratio has also declined from 45.54 percent in 2006-07 to 34.67 percent in 2010-11. Observations reveal that female-male ratio in education has also been steadily improving over the years.

Figure 8 : Primary Education in Rajasthan, DISE, 2006-09 (in %)

Primary Education in Rajasthan, 2006-09

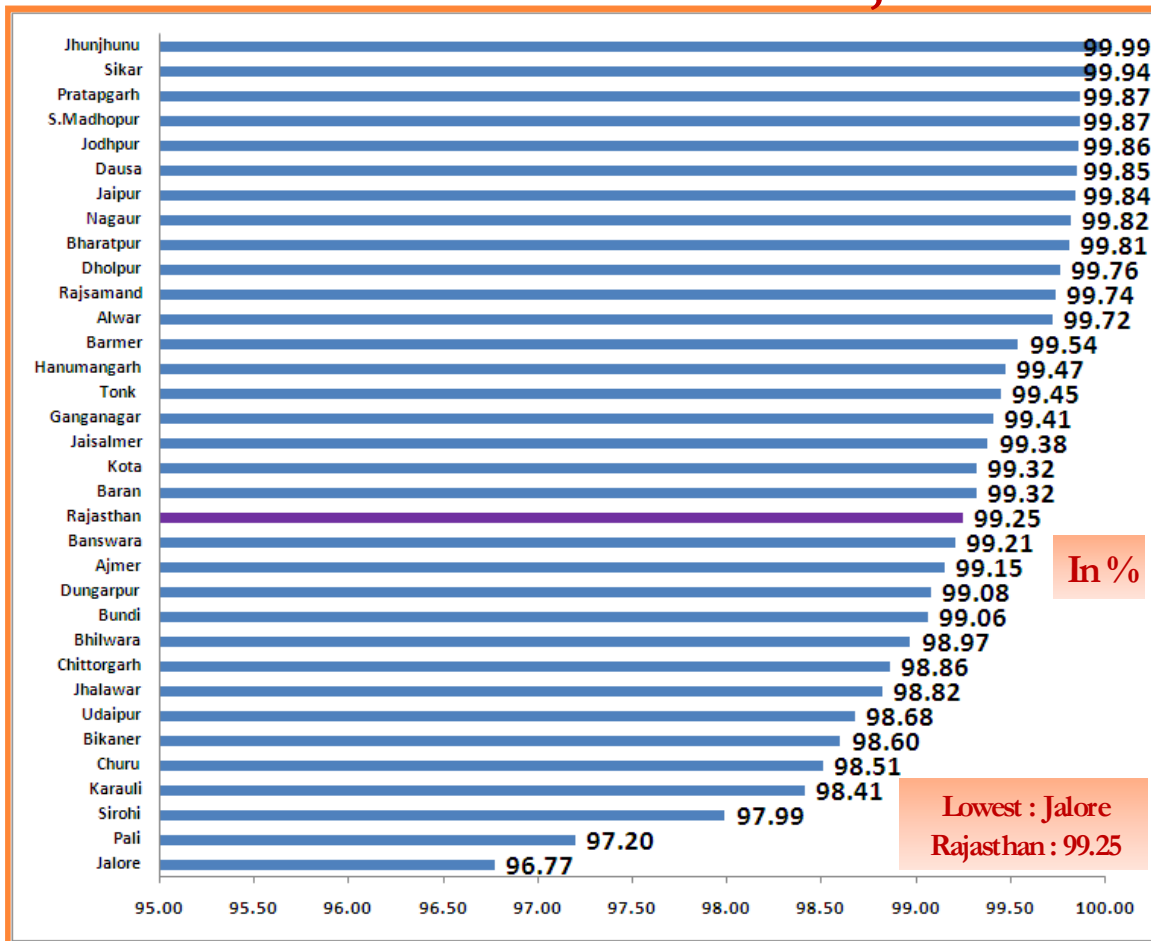

Source: District Information System for Education, 2006-2009

The District-wise Net enrollment ratio (NER) for the educational year 2010-11 reveals that the district with the highest NER is Jhunjhunu (99.99 percent) followed by Sikar (99.94 percent) and the lowest NER is observed in case of Jalore district (96.77 percent). The 2009-10 DISE report has not presented the figures for Gross and Net Enrollment Ratio.

**Figure 9 : Net Enrollment Ratio in districts of Rajasthan, DISE, 2008-09
(in %)**

Literacy Rate (15-24 years), Census 2001

Sources : Computed from Census 2001

As per the latest published DISE data for the educational year 2010-11 as of September 30, 2010 reveals that there are more than one lakh schools in Rajasthan, in which there is a total enrollment of 12.48 million children in the primary and upper primary category. Amongst the selected three districts, Udaipur has the highest number of schools (5,090) and Jalore has the lowest (2,846). The Pupil-Teacher Ratio (PTR) for Government is lowest in case of Bharatpur (32.47) and the highest in case of Jalore (46.81). The number of girls per 1,000 boys upto eighth class is highest in case of Bharatpur (849) and Udaipur (823) and lowest in case of Jalore (722) (Table 4). The total gender gap in Rajasthan has been reported to be 6.38 and it is highest in Jalore and lowest in Bharatpur. Among SC, it is highest in Jalore and lowest in Bharatpur. Similarly, in case of ST students, it is highest in Jalore and lowest in Bharatpur. The number of girls per thousand boys enrolled is highest in Bharatpur and lowest in Jalore. Almost all the indicators are worse in Jalore among the three selected districts (See table 4).

Table 4 : Key Indicators from DISE, 2010-11 for Rajasthan and the three selected districts

Rajasthan/ District	Total Clusters	Total Schools	Total Enrollment	Total Teachers	PTR (Government)- Primary only	Gender Gap (SC)	Gender Gap (ST)	Gender Gap (T)	No. of Girls per 1,000 Boys enrolled
Rajasthan	9,206	105,190	12,486,900	460,214	31.38	6.50	7.86	6.38	842
Bharatpur	351	3,447	468,832	17,539	32.47	5.55	5.20	6.46	849
Jalore	267	2,846	343,087	10,418	46.81	12.69	25.95	11.84	722
Udaipur	508	5,090	526,262	18,919	32.86	5.99	11.00	8.11	823

Objectives of the Study

The broad objectives of the present study are:

1. to verify and validate the data collected through DISE
2. to study the usefulness of DISE data required for achieving the goal of Primary and Higher Primary education
3. to suggest appropriate measures for improving the quality of DISE data.

Chapter 2

Background

The Directorate of Economics and Statistics has been commissioned to conduct a Study on the 5% post enumeration check of the DISE data. The District Statistical Officers (DSOs) were entrusted with the task of collecting data by canvassing a semi-structured schedule.

Reference Period

The reference period for the DISE data and the post enumeration survey (PES) are the same i.e. September 30, 2011 for the districts of Bharatpur, Jalore and Udaipur for the year 2011-12. In the present report, data for these three districts have been presented.

Table 5 : Reference period of data of the three districts in Rajasthan

<i>Sl. No.</i>	<i>District</i>	<i>Reference Period</i>
1	Bharatpur	2011-12
2	Jalore	2011-12
3	Udaipur	2011-12

Study Design

The guidelines for the study design and the name of the selected districts was provided by the Department of School Education, Government of Rajasthan, where it was suggested that 5 percent of Schools have to be selected from the three selected districts of Bharatpur, Jalore and Udaipur.

Sampling Procedure

The study was planned to collect data from three districts covering 5 percent of the total primary and higher primary schools. The Department of School Education provided the list of Schools in the three districts of Jalore, Bharatpur and Udaipur to be covered in the Post Enumeration Survey. The total number of schools in these three districts are to the tune of 11,705 out of which 8,818 (75.34 percent) are in the Government sector and 2,887 (24.66 percent) are in the Private sector. According to the sampling guideline, 5 percent of the schools were selected by systematic random sampling from the total schools.

Data Collection

The study was carried out in three districts of Rajasthan namely; Bharatpur, Jalore and Udaipur. In all, 11,705 schools are present in these three districts and 5 percent of these schools (603) have been selected by systematic random sampling after stratifying the schools as Government and Private schools in the ratio of 75:25. In total, 452 Government schools and 151 private schools have been covered in the survey.

In all, 603 schools have been selected from a total of 11,705 schools, with 184 in Bharatpur, 160 in Jalore and 259 in Udaipur. In all, 2 private schools were found to be closed.

Table 6 : Number of total and sampled schools in the three selected districts of Rajasthan for the educational year 2011-12

Sl. No.	District	Total			Sampled Schools		
		No. of Government Schools	No. of Private Schools	Total No. of Schools	No. of Government Schools	No. of Private Schools	Total No. of Schools
1	Bharatpur	2,353	1,310	3,663	138	46	184
2	Jalore	2,134	734	2,868	120	40	160
3	Udaipur	4,331	843	5,174	194	65	259
	Total	8,818	2,887	11,705	452	151	603

As per the sampling guideline, in each district atleast 20 schools have been selected per block and 5 percent of the total schools have been sampled. In these three districts, on an average 21 schools per block have been selected.

Table 7 : Average number of schools per block in the three selected districts of Rajasthan for the educational year 2011-12

Sl. No.	District	Number of Blocks	Total Schools	Govt. Schools	Pvt. Schools	Average Schools per block	Average Schools per block as per sample
1	Bharatpur	9	3,663	2,353	1,310	407	20
2	Jalore	8	2,868	2,134	734	359	20
3	Udaipur	12	5,174	4,331	843	431	22
	Total	29	11,705	8,818	2,887	403	21

Field Operations and Supervision

The field work of post enumeration survey of DISE was conducted and supervised by the Directorate of Economics and Statistics with the help of its well trained Assistant Statistical Officers and staff of different Departments in the district. The field staff was given intensive training for one day before the initiation of the field work. It helped in getting reliable data from the field. The training was done in a cascade format. The master trainers trained at the

Directorate headquarters trained Assistant Statistical Officers and other staff from different departments in the districts. Some of the filled in formats were spot checked by designated Deputy Director, Statistical Officers of the Directorate and Statistical Officers in the Districts.

Scrutiny of data and validation

The data was scrutinized and validated at the Directorate. The quality of data under PES was found to be of good order. The special DCF was constructed in line with the objectives of the study which was helpful in maintaining the quality of the data under PES. The quality of the data under PES was maintained to a great extent due to the well versed field staff, computer staff of the Directorate and the overall co-operation of the headmasters and principals, BRC/CRC members and the officials of SSA unit.

Data Entry and Analysis

After the scrutiny of PES data, data entry was done in a customized data entry module in excel and tabulation was done in excel at the Directorate with the help of its well trained computer personnel. The tabulated data was compared with the comparative data from DISE from SSA division in the State and the percentage of variation was computed for certain selected indicators.

Univariate and bivariate analyses were conducted. Crosstabulations were done between different variables. In order to compare the data on some major indicators available in the Special Data Capture Format (DCF) and the DCF used in DISE, variation was computed by simple deviation method, which was used to estimate the deviation between DISE and PES data. The variation between the two data sets was calculated by using the following formula:

$$\text{Percentage of Variation} = \frac{PES - DISE}{DISE} \times 100$$

Where, DISE stands for data collected from the sampled schools from the DCF used in DISE and PES stands for data collected from the sampled schools from the special DCF data.

The overall percentage of variation was computed by using the following formula:

$$\text{Overall Percentage of Variation} = \frac{(d1 + d2 + d3 \dots dx)}{(p1 + p2 + p3 \dots pn)} \times 100$$

Where, d1,d2.....dx stand for deviation of items of different indicators of DISE data from PES (Post enumeration survey) data ignoring ± signs and p1,p2,p3.....pn denote the respective items of indicators of PES data

The report consists of a comparative study of the PES and DISE data of the certain indicators of education collected from the 5% sampled schools.

Chapter 3

Chapter 3 Major Findings of the Post Enumeration Survey

In all, 603 schools were covered in the three districts of, Bharatpur, Jalore and Udaipur of Rajasthan for the educational year 2011-12, out of which, 452 were government schools and 151 were private schools. Out of this, 2 schools were found to be closed. So, the findings are based on 601 schools, out of which, 452 are Government schools and 149 are private schools. The major findings have been presented here alongwith the tables. In some places, they have been illustrated with charts. The distribution of number of sampled schools and those found closed in the three districts are as follows:

Table 8 : Number of total and sampled schools in the three selected districts of Rajasthan for the educational year 2011-12

Sl. No.	District	Sampled Schools			Data available for following schools			Schools Closed
		No. of Government Schools	No. of Private Schools	Total No. of Schools	No. of Government Schools	No. of Private Schools	Total No. of Schools	
1	Bharatpur	138	46	184	138	46	184	0
2	Jalore	120	40	160	120	40	160	0
3	Udaipur	194	65	259	194	63	259	2
	Total	452	151	603	452	149	601	2

There seems to be some variation between the regular DISE data captured by the DISE DCF and the special DCF of PES data. The two data sets have been compared on some indicators of enrolment, pupil teacher ratio and availability of certain facilities and it is observed that there is variation between the two sets of data.

Among the 3 selected districts, in Udaipur district highest number of schools are reported to be managed by the Local bodies (53.3 percent) followed by Jalore and Bharatpur (See table 9).

Based on the data availability of DCF of DISE and the Special DCF of the 5% schools in all the three selected districts, some key aspects have been compared. One of them relates to the distribution of Schools by management and the other relates to the type of schools and some indicators related to different facilities in the schools. With regards to School management, variation has been found between the two sets of data. The maximum variation is observed in case of the management of unrecognized schools followed by those managed by tribal welfare department and others. The variation in the number of schools managed by local bodies is observed in the fact that 279 school have been reported by the survey (PES) compared to 258 schools reported by DISE DCF data.

Table 9 : Percentage of Schools by Management in the three selected districts of Rajasthan for the educational year 2011-12 (%)

Schools by Management	Bharatpur	Jalore	Udaipur	Total
School Education Department	36.4	28.1	20.2	27.29
Tribal Welfare Department	0.0	1.3	1.2	0.83
Local Body	38.6	44.4	53.3	46.42

Total no. of schools	184	184	0.0	160	160	0.0	259	259	0.0	603	603	0.0

The overall percentage of variation between the two sets of data based on the above indicators is 0.03 percent. The key findings of the data of five percent sample checking of the Post Enumeration Survey on various aspects such as school management, gender and category based distribution of schools, school building type and condition, total number of classrooms and other rooms by condition, availability of facilities in schools, enrollment and examination results etc. have been presented in this chapter. The findings are based on a total of 601 schools covered in these three districts.

Status of Teachers' Posts

Overall, the percentage of posts of teachers filled up against the total sanctioned post in the three districts is 85.83 percent, in case of Government and Private schools, 91.66 percent of the teachers' post is filled up in private schools and 81.66 percent in Government schools (See Table 18).

In Bharatpur district, it is reported that a total of 91.47 percent post of teachers are filled up, out of which, 100.00 percent are filled in private schools and 86.62 percent in government Schools out of total post sanctioned. In Jalore district, it is reported that, a total of 85.11 percent teachers post are filled up, out of which 97.55 percent are filled in private schools and 78.99 percent are filled in government schools, out of total post sanctioned. In Udaipur district, it is reported that a total 83.24 percent teachers post are filled up, out of which, 87.02 percent are filled in private schools and 79.83 percent in government schools, out of total post sanctioned. Overall, the percentage of teachers post

filled up, out of total post sanctioned, is highest in Bharatpur (91.47 percent) and lowest in Udaipur (83.24 percent). Amongst the private schools, it is highest in Bharatpur (100.00 percent) and lowest in Udaipur (87.02 percent). Amongst the Government schools, it is highest in Bharatpur (86.62 percent) and lowest in Jalore (78.99 percent).

Gender and category based distribution of schools

Overall, in the three districts, 95.01 percent schools are Co-ed, 1.66 percent schools are only for boys and rest 3.33 percent are only for girls. The highest percent of Co-ed schools are in Bharatpur (95.11 percent) and lowest in Udaipur (94.94 percent). The highest percent of schools which are only for boys, is in Udaipur (2.72 percent) and lowest in Jalore (0.63 percent). Similarly, the highest percent of schools which are only for girls, are in Jalore (4.38 percent) and lowest in Udaipur (2.33 percent). Among the schools having primary classes only, 97.85 percent schools are Co-ed, 1.54 percent schools are only for boys and 0.62 percent schools are only for girls. Among the schools having primary with upper primary, 91.41 percent schools are Co-ed, 0.51 percent schools are only for boys and 8.08 percent schools are only for girls. Among the schools having primary with secondary classes, 96.15 percent schools are Co-ed, 3.85 percent schools are only for boys and 0.00 percent schools are only for girls. Among the schools having upper primary with secondary, 3.92 percent schools are Co-ed, 0.00 percent schools are only for boys and 0.00 percent schools are only for girls. Among the schools having upper primary only, 90.20 percent schools are Co-ed, 5.88 percent schools are only for boys and 3.92 percent schools are only for girls (See table 19a and 19b).

Among the three districts, in **Jalore** district, 95.00 percent schools are Co-ed, 0.63 percent schools are only for boys and 4.38 percent schools are only for girls. Among the schools having primary only, 98.86 percent schools are Co-ed. Among the schools having primary with upper primary, 90.20 percent schools are Co-ed. Among the schools having primary with secondary, 87.50 percent schools are Co-ed, 0.00 percent schools are only for girls. Among the schools having upper primary with secondary 0.00 percent schools are Co-ed, 0.00 schools are only for boys & 0.00 percent schools are only for girls. Among the schools having upper primary only, 92.31 percent schools are Co-ed.

In **Bharatpur** district, 95.11 percent schools are Co-ed, 1.09 percent schools are only for boys and 3.80 percent schools are only for girls. Among the schools having primary only, 98.65 percent schools are Co-ed & 1.35 percent schools are only for boys. Among the schools having primary with upper primary, 91.14 percent schools are Co-ed, 0.00 percent schools are only for boys and 8.86 percent schools are only for girls. Among the schools having primary with secondary, 100.00 percent schools are Co-ed. Among the schools having upper primary with secondary, 0.00 percent schools are only for boys. Among the schools having upper primary only, 96.00 percent schools are Co-ed & 4.00 percent schools are only for boys. In **Udaipur** district, 94.94 percent schools are Co-ed, 2.72 percent schools are only for boys and 2.33 percent schools are only for girls. Among the schools having primary only, 96.93 percent schools are Co-ed & 2.45 percent school are only for boys & 0.61 percent schools are only for girls. Among the schools having primary with upper primary, 92.65 percent

schools are co-ed, 1.47 percent schools are only for boys and 5.88 percent schools are only for girls. Among the schools having primary with secondary, 100.00 percent schools are Co-ed. Among the schools having upper primary with secondary classes, 100.00 percent schools are Co-ed and 0.00 percent schools are only for boys and 0.00 percent schools are only for girls. Among the schools having upper primary and 7.69 percent schools are for girls only 76.92 percent schools are Co-ed, 15.38 percent schools are only for boys.

Gender-wise permanent and other staff in schools

In the three districts, overall, 68.60 percent male and 31.94 percent female teachers are working other than the headmaster. In primary schools, it is 65.91 percent for males and 34.49 percent for females, whereas in upper primary, it is 71.36 percent for males and 28.64 percent for females. Similarly, in the three districts overall, 75.71 percent male and 24.29 percent females are working as para teachers. In primary schools, it is 74.76 percent for males and 25.24 percent for females, whereas in upper primary, it is 78.38 percent for males and 21.62 percent for females (See table 20a, 20b, 20c and 20d).

Among the three districts, in **Jalore** district overall, 83.86 percent male and 16.14 percent female teachers are working other than the headmaster. In primary schools, it is 80.36 percent for males and 19.64 percent for females, whereas in upper primary schools, it is 91.04 percent for males and 8.96 percent for females.

Similarly, in **Jalore** district overall, 70.97 percent male and 29.03 percent females are working as a para teacher. In primary, it is 70.37 percent for male and 29.63 percent for female, whereas in upper primary, it is 75.00 percent and 25.00 percent respectively. In **Bharatpur** district overall, 80.67 percent male and 19.33 percent female teachers are working other than headmaster. In primary, it is 78.68 percent for male and 21.32 percent for female, whereas in upper primary, it is 82.89 percent for males and 17.11 percent for females. Similarly, in **Bharatpur** district overall, 73.68 percent male and 26.32 percent female are working as para teacher. In primary, it is 71.43 percent for male and 28.57 percent for females, whereas in upper primary, it is percent are 80.00 percent for males and 20.00 percent for females. In **Udaipur** district overall, 50.00 percent male and 50.00 percent female are working other than the headmaster. In primary, it is 45.67 percent for males and 54.33 percent for females, whereas in upper primary, it is 54.99 percent for males and 45.01 percent for females.

Similarly, in **Udaipur** district overall, 78.87 percent males and 21.13 percent females are working as para teachers. In primary schools, it is 79.17 percent for males and 20.83 percent for females, whereas in upper primary, it is 78.26 percent for male and 21.74 percent for females.

Attendance of the teachers on the day of visit

Overall, 68.78 percent of the teachers were present on the day of survey, out of the total working teachers. The highest percent of teachers were present in Jalore district (53.04 percent) followed by Udaipur (61.56 percent) and lowest in Bharatpur (96.54 percent) (See table 21).

School building type and condition

Status of school building

In Government Schools:

With regards to the status of school building in the 3 districts, the highest percent of schools are functioning in government building (98.01 percent) followed by government on rent (1.33 percent) and without building (0.66 percent). Among the three districts, in **Jalore** district, the highest percent of schools are functioning in government building (97.50 percent) followed by without building (1.67 percent). In **Bharatpur** district, highest percent of schools are functioning in government building (99.28 percent) followed by government on rent (0.00 percent) & lowest are without building (0.72 percent). In **Udaipur** district, highest percent of schools are functioning in government building (97.42 percent) followed by government on rent (2.58 percent) and schools without building were 0.00 percent (See table 22a).

In Private Schools:

With regards to the status of school building in the 3 districts, the highest percent of schools are functioning in Private on rent (69.13 percent) followed by Private building (30.87 percent). Among the three districts, in **Jalore** district 75.00 percent of schools are functioning in Private on rent & 25.00 percent in Private building. In **Bharatpur** district, highest percent of schools are functioning in private on rent building (32.61 percent) followed by Private building (67.39 percent). In **Udaipur** district, highest percent of schools are functioning in private on rent building (66.67 percent) followed by Private building (33.33 percent) (See table 22b).

Type of school building

Out of the total sample of 601 selected schools in the three districts, 91.85 percent are functioning in pucca buildings, 7.49 percent are partially pucca and 0.67 percent are kuccha building. In **Jalore**, it is 83.75 percent for pucca, 14.38 percent for partially pucca and 1.88 percent for kuccha. In **Bharatpur**, it is 94.02 percent for pucca, 5.43 percent for partially pucca & 0.54 for kuccha. In **Udaipur**, it is 95.33 percent for pucca, 4.67 for partially pucca and 0.00 percent for kuccha building (See table 22c).

Total number of classrooms and other rooms by condition

Government Schools

Out of total rooms available in the school in the 3 districts, 68.85 percent are in good condition, 18.85 percent need minor repair, 9.75 percent need major repair and 2.54 percent are not usable. For classrooms it is 68.54 percent, 19.61 percent, 9.81 percent and 2.03 percent respectively. For other rooms it is 69.72 percent, 16.69 percent, 9.60 percent and 3.99 percent respectively. Among the 3 districts, in **Jalore** district out of total rooms available in the school, 66.39

percent are in good condition, 22.91 percent need minor repair, 7.41 percent need major repair and 3.29 percent are not usable. For number of classrooms it is 68.31 percent, 21.86 percent, 7.10 percent and 2.73 percent respectively. For other rooms it is 60.56 percent, 26.11 percent, 8.33 percent and 5.00 percent respectively. In **Bharatpur** district out of total rooms available in the school, 76.91 percent are in good condition, 12.39 percent need minor repair, 8.63 percent need major repair and 2.07 percent are not usable. For number of classrooms it is 77.32 percent, 13.06 percent, 8.08 percent and 1.55 percent respectively. For other rooms it is 75.93 percent, 10.79 percent and 9.96 percent and 3.32 percent respectively. In **Udaipur** district out of total rooms available in the school, 64.20 percent are in good condition, 21.11 percent need minor repair, 12.28 percent need major repair and 2.40 percent are not usable. For number of classrooms it is 62.21 percent, 22.90 percent, 12.18 percent and 1.91 percent respectively. For other rooms, it is 70.31 percent, 15.63 percent, 10.16 percent and 3.91 percent respectively. (See table 22e).

Private Schools

Out of total rooms available in the school in the 3 districts, 89.15 percent are in good condition, 9.24 percent need minor repair, 1.53 percent need major repair and 0.08 percent are not usable. For classrooms it is 87.72 percent, 10.48 percent, 1.69 percent and 0.11 percent respectively. For other rooms it is 94.89 percent, 4.26 percent, 0.85 percent and 0.00 percent respectively. Among the 3 districts, in **Jalore** district, out of total rooms available in the school, 70.45 percent are in good condition, 26.52 percent need minor repair & 3.03 percent need major repairs and 0.00 percent are not usable. For classrooms it is 65.88 percent, 30.33 percent & 3.79 percent and 0.00 percent respectively. For other rooms, it is observed that 88.68 percent rooms are in good condition, 11.32 percent need minor repair, 0.00 percent need major repair and 0.00 percent are not usable. In **Bharatpur** district, out of total rooms available in the school, 93.78 percent are in good condition, 5.70 percent need minor repair & 0.52 percent need major repair. For classrooms it is 93.13 percent, 6.25 percent and 0.62 percent respectively. For other rooms it is 96.97 percent, 3.03 percent, 0.00 percent and none respectively. In **Udaipur** district, out of total rooms available in the school, 95.09 percent are in good condition, 3.21 percent need minor repair, 1.51 percent need major repair and 0.19 percent are not usable. For classrooms it is 94.69 percent, 3.62 percent, 1.45 percent and 0.24 percent respectively. For other rooms it is 96.55 percent, 1.72 percent, 1.73 percent and 0.00 percent respectively. (See table- 22f).

Both Government and Private Schools

Out of total rooms available in the school in the 3 districts, 75.20 percent are in good condition, 15.85 percent need minor repair, 7.18 percent need major repair and 1.77 percent are not usable. For number of classrooms it is 74.88 percent, 16.60 percent, 7.13 percent and 1.40 percent respectively. For other rooms it is 76.21 percent, 13.49 percent, 7.35 percent and 2.95 percent respectively. Among the 3 districts, in **Jalore** district out of total rooms available in the school, 67.47 percent are in good condition, 23.87 percent need minor repair, 6.24 percent need major repair and 2.42 percent are not usable. For number of classrooms it is 67.63 percent, 24.21 percent, 6.18 percent and 1.97 percent respectively. For

other rooms it is 66.95 percent, 22.75 percent, 6.44 percent and 3.86 percent respectively. In **Bharatpur** district out of total rooms available in the school, 82.30 percent are in good condition, 10.26 percent need minor repair, 6.04 percent need major repair and 1.41 percent are not usable. For number of classrooms it is 82.93 percent, 10.64 percent, 5.43 percent and 1.00 percent respectively. For other rooms it is 80.46 percent, 9.12 percent and 7.82 percent and 2.61 percent respectively. In **Udaipur** district out of total rooms available in the school, 74.62 percent are in good condition, 15.08 percent need minor repair, 8.65 percent need major repair and 1.65 percent are not usable. For number of classrooms it is 73.42 percent, 16.25 percent, 9.00 percent and 1.33 percent respectively. For other rooms, it is 78.49 percent, 11.29 percent, 7.53 percent and 2.69 percent respectively. (See table 22d).

Average Number of Classrooms in a School

Overall, in the 3 districts, the average number of classrooms is 4.76. This is highest in **Bharatpur** (4.90) followed by **Jalore** (4.75) and it is lowest in **Udaipur** (4.67).

Facilities available in schools

Availability of boundary walls

Overall, in the three districts, 52.88 percent Government school and 67.11 percent private schools, have permanent boundary walls in the schools. For temporary boundary walls, it is 20.13 percent for Government schools and 15.44 percent for private schools, whereas, in 26.99 percent Government schools and 17.45 percent private School, no boundary wall is available in the school. Among the 3 district, in **Jalore** district, the percent of school having permanent boundary walls is 60.83 percent for Government schools and 47.50 percent for private Schools. For temporary boundary walls, it is 20.00 percent for Government and 30.00 percent for private schools, whereas in 19.17 percent Government and 22.50 percent private Schools, no boundary wall is available in the school (See table 23a, 23b, 23c and 23d).

In **Bharatpur** district, the percent of school have permanent boundary walls, is 59.42 percent for Government and 84.78 percent for private schools. For temporary boundary walls, it is 13.77 percent for Government and 8.70 percent for private schools, whereas in 26.81 percent Government and 6.52 percent private schools.

In **Udaipur** district, the percent of school having permanent boundary walls is 43.30 percent for Government schools and 66.67 percent for private Schools. For temporary boundary walls, it is 24.74 percent for Government and 11.11 percent for private Schools, whereas, in 31.96 percent Government and 22.22 percent private Schools, no boundary wall is available in the school.

Availability of playground

With regards to the availability of playgrounds in the school overall, 36.50 percent Government and 59.06 percent private schools, have this facility. For

Government schools, it is highest in **Jalore** (43.33 percent) followed by **Bharatpur** (36.96 percent) and lowest in **Udaipur** (31.96 percent). For private schools, the highest percent of schools in which playground facility is available covered under **Jalore** district (65.00 percent) followed by **Udaipur** (57.14 percent) and lowest in **Bharatpur**(56.52 percent) (See table 24).

Availability of girls' toilet in Schools

It is evident that out of the total sample of size 601 schools, in 86.06 percent Government and 77.85 percent private schools, girl's toilets are available. In case of Government school, it is highest **Jalore** (90.00 percent) followed by **Udaipur** (85.05 percent) and lowest in **Bharatpur** (84.06 percent), whereas in case of private Schools, it is highest in **Bharatpur** (86.96 percent) followed by **Jalore** (85.00 percent) and lowest in **Udaipur** (66.67 percent) (See figure 13 & table 24).

Availability of electricity in the schools

Out of the total sample of 601 schools, only 29.20 percent Government and 65.73 percent private schools are there, in which electricity is available. In **Jalore** district, it is 32.50 percent for Government and 37.50 percent for private. For **Bharatpur** district, it is 32.61 percent for Government and 73.91 percent for private Schools, whereas in case of **Udaipur** district, it is 24.74 percent for Government and 77.78 percent for private schools (See table 24).

Availability of drinking water facility in the school

Overall, in the 3 districts in 84.29 percent Government and 96.69 percent private Schools, drinking water facility is available. For Government schools, it is highest in **Udaipur** (89.18 percent) followed by **Jalore** (89.17 percent) and lowest in **Bharatpur** (73.19 percent), whereas in case of private Schools, it is highest in **Udaipur** (100.00 percent) followed by **Jalore** (100.00 percent) & lowest in **Bharatpur** (93.48 percent) (See table 24).

Availability of computer in good condition

Out of the total sample of 601 schools, in 18.14 percent Government and 49.67 percent private Schools computer facility is available. For Government schools, it is highest in **Jalore** (41.67 percent) followed by **Bharatpur** (12.32 percent) and lowest in **Udaipur**(7.73 percent). In case of private Schools, it is highest in **Jalore** (70.00 percent), followed by **Udaipur** (53.97 percent) and it is lowest in **Bharatpur** (28.26 percent) (See table 24).

Source of drinking water

Out of the total 601 schools, the most reported source of drinking water in Government schools, is handpump (52.65 percent) followed by tap water (16.37 percent) followed by not available (15.71 percent) and lowest is water from wells (4.42 percent). Whereas in case of Private Schools, tap water is the most popular source of drinking water (44.30 percent) schools, followed by hand pump (29.53

percent) followed by others (20.13 percent) and lowest is from water-well others (4.03 percent) (See table 25 & 25a).

Among the 3 districts, in **Udaipur** district the highest percent of Government schools, are using hand pump (74.23 percent) as a source of drinking water followed by water well (7.73 percent), followed by tap water (4.12 percent). Whereas in case of private Schools, it is highest for Tap Water (44.44 percent) followed by Hand pump (31.75 percent), followed by others (15.87 percent).

In **Bharatpur** district, the highest percent of Government schools, are using Hand pump (65.22 percent) as a source of drinking water followed by Others (3.62 percent), followed by Tap Water (2.90 percent). Whereas in case of private Schools, it is highest for Hand Pump (52.17 percent), followed by Tap Water (26.09 percent) followed by Others (13.04 percent).

In **Jalore** district, the highest percent of Government schools, are using Tap Water (51.67 percent) as a source of drinking water followed by Others (31.67 percent), followed by not available (10.83 percent) and lowest by water well (2.50 percent). Whereas, in case of private schools, it is highest for tap water (65.00 percent) followed by Others (35.00 percent) followed by hand pump (0.00 percent).

Availability of classrooms chairs for students in the schools

Overall, in the 3 districts in 63.27 percent Government schools, chairs are not available to student followed by 13.27 percent schools where chairs are available to some students followed by 23.45 percent where chairs are available to all students. Whereas in case of private schools, in 16.78 percent schools where chairs are available to some students followed by 72.48 percent chairs are not available to students, followed by 10.74 percent where chairs are available to all students (See table 26a and 26b).

In **Jalore** district, in 0.83 percent Government and 90.00 percent private schools, chairs are not available to students. Similarly, in 16.67 percent Government and 2.50 percent private schools, chairs are not available to some students and in 82.50 percent Government and 7.50 percent private schools, where chairs are available to all students.

In **Udaipur** district, in 12.89 percent Government and 30.16 percent private schools, in which chairs are available to some students. Similarly, in 84.54 percent Government and 52.38 percent private schools, chairs are not available to students & in 2.58 percent Government and 17.46 percent private schools where chair are available to all students.

In **Bharatpur** district, in 87.68 percent Government and 84.78 percent private schools, in which chairs are not available to students. Similarly in 10.87 percent Government and 10.87 percent private schools, chairs are not available to some students and in 1.45 percent Government and 4.35 percent private Schools, where chairs are available to all students.

Number of schools where single teacher is working

Out of the total sample of size 603 schools (actual sample size was 601 as 2 Private Schools were found to be closed), in 21.80 percent schools only a single teacher is working. It is highest in **Jalore** (30.63 percent) followed by **Udaipur** (27.24 percent) and lowest in **Bharatpur** (6.52 percent) (See table 27).

Educational qualification of head master/ senior teachers

Out of total sample of 601 schools in the 3 districts, in 30.97 percent schools the educational qualification of head master/senior teachers is others followed by (28.10 percent) Post Graduate with B.Ed followed by 25.88 percent with Graduate with B.Ed followed 12.61 percent higher secondary with BSTC and 2.43 percent in which the qualification is post graduation with M.Ed (See table 28 & 28a).

Among the 3 districts, in **Jalore** district, in the highest percent of schools (39.17 percent) the educational qualification of the headmaster/senior teachers is others followed by (30.83 percent) graduation with B.Ed. followed by (29.17 percent) post graduation with B.Ed. followed by higher secondary with BSTC (0.00 percent) and lowest is post graduation with M.Ed (0.83 percent).

In **Bharatpur** district, in the highest percent of schools (45.65 percent) the educational qualification of the headmaster/senior teachers is with other qualification followed by 50.00 percent graduation with B.Ed. followed by 2.17 percent post graduation with B.Ed., followed by (2.18 percent) higher secondary with BSTC and lowest is (0.00 percent) post graduation with M.Ed.

In **Udaipur** district, in highest percent of schools (36.08 percent) the educational qualification of the headmaster/senior teachers is others followed by (22.16 percent) Graduate with B.Ed. followed by (19.59 percent) Higher secondary with BSTC followed by 19.07 percent) Post Graduate with B.Ed. and lowest is (3.09 percent) post graduation with M.Ed.

Service length at the post of Headmaster/ Senior Teacher

Overall, in the 3 districts the highest percent of schools (69.05 percent) are covered under the category, in which the service length at the post of head master/senior teacher is upto 5 years followed by 30.95 percent where service length is above 5 years (See table 29a and 29b).

Years elapsed since the establishment of the school

Out of the total 601 schools covered, in 36.27 percent of schools, the schools are upto 12 years old, whereas in the rest 63.73 percent of schools are old more than 12 years. In case of Government schools, it is 33.41 percent and 66.59 percent whereas in case of private Schools, it is 44.97 percent and 55.03 percent respectively. Among the 3 districts, in Jalore district, in 50.63 percent schools the duration of establishment of school is more than 12 years whereas, in the rest 49.37 percent, it is duration is up to 12 years. In case of Government schools it is 40.00 percent and 60.00 percent respectively, whereas in case of

private Schools, it is 82.50 percent and 17.50 percent respectively (See table 30a, 30b, 30c and 30d).

In Bharatpur district, in 77.17 percent schools the years elapsed since the establishment of school, is more than 12 years, whereas, in the rest 22.83 percent it is upto 12 years. In case of Government schools, it is 79.71 percent and 20.29 percent respectively, whereas in case of private Schools, it is 69.57 percent and 30.43 percent respectively.

In Udaipur district, in 62.26 percent schools, the duration of establishment of school is more than 12 years whereas, in the rest 37.74 percent this duration is upto 12 years. In case of Government schools it is 73.71 percent and 26.29 percent respectively, whereas in case of private Schools, it is 26.98 percent and 73.02 percent respectively.

Genderwise and Social categorywise student's attendance on the day of survey in current year 2011-12

In Government Schools:

Overall, in the 3 districts total enrollment in primary on the day of survey is 32,925, out of which 5,793 (17.59 percent) students are in SC category and 11,822 (35.91 percent) students are in ST Category. Out of total enrollment on the day of survey, 47.88 percent are boys and 52.12 percent are girls.

Overall, 68.53 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 71.01 percent boys were present. Similarly out of total enrolled girls, 66.26 percent were present.

In SC category overall, 59.54 percent students were present out of the total students enrolled in SC category. In case of boys, this is 60.52 percent and in case of girls, this is 58.61 percent respectively.

In ST category overall, 77.10 percent students were present out of the total students enrolled in ST category. In case of boys, this is 79.16 percent and in case of girls this is 74.82 percent respectively.

Overall, in the 3 districts total enrollment in upper primary on the day of survey is 11,287, out of which 1,907 (16.90 percent) students are in SC category and 2,834 (25.11 percent) students are in ST category. Out of total enrollment on the day of survey, 50.01 percent are boys and 49.99 percent are girls.

Overall, 73.45 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 75.75 percent boys were present. Similarly out of total enrolled girls, 71.14 percent were present.

In SC category overall, 70.42 percent students were present out of the total students enrolled in SC category. In case of boys, it is 70.95 percent and in case of girls, this 69.88 percent respectively.

In ST category overall, 85.04 percent students were present out of the total students enrolled in ST category. In case of boys, it is 86.70 percent and in case of girls, it is 82.73 percent respectively.

Overall, in the 3 districts total enrollment upto upper primary on the day of survey is 44,212, out of which 7,700 (17.42 percent) students are in SC category and 14,656 (33.15 percent) students are in ST category. Out of total enrollment on the day of survey, 48.43 percent are boys and 51.57 percent are girls.

Overall, 69.79 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 72.26 percent boys were present. Similarly out of total enrolled girls, 67.47 percent were present.

In SC category overall, 62.23 percent students were present out of the total students enrolled in SC category. In case of boys this is 63.18 percent and in case of girls this is 61.32 percent respectively.

In ST category overall, 78.64 percent students were present out of the total students enrolled in ST category. In case of boys, this is 80.74 percent and in case of girls, it is 76.20 percent respectively.

Among the 3 districts, overall, in Bharatpur district, total enrollment in primary classes on the day of survey is 9,765, out of which 2,684 (27.49 percent) students are in SC category and 175 (1.79 percent) students are in ST category. Out of total enrollment on the day of survey, 44.41 percent are boys and 55.59 percent are girls.

Overall, 52.21 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 54.35 percent boys were present. Similarly out of total enrolled girls, 50.50 percent were present.

In SC category overall, 48.99 percent students were present out of the total students enrolled in SC category. In case of boys, this is 49.56 percent and in case of girls, this is 48.50 percent respectively.

In ST category overall, 38.86 percent students were present out of the total students enrolled in ST category. In case of boys, this is 64.29 percent and in case of girls, this 26.89 percent respectively.

Overall, in the Bharatpur district total enrollment in upper primary classes on the day of survey is 3,432, out of which 1,045 (10.70 percent) students are in SC category and 27 (0.28 percent) students are in ST category. Out of total enrollment on the day of survey, 44.09 percent are boys and 55.91 percent are girls.

Overall, 22.41 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 24.30 percent boys were present. Similarly out of total enrolled girls, 20.89 percent were present.

In SC category overall, 26.71 percent students were present out of the total students enrolled in SC category. In case of boys, this is 29.69 percent and in case of girls this is 24.11 percent respectively.

In ST category overall, 5.71 percent students were present out of the total students enrolled in ST category. In case of boys, this is 3.57 percent and in case of girls, this is 6.72 percent respectively.

Overall, in the Bharatpur district total enrollment upto upper primary on the day of survey is 13,197, out of which 3,729 (38.19 percent) students are in SC category and 202 (2.07 percent) students are in ST category. Out of total enrollment on the day of survey, 44.33 percent are boys and 55.67 percent are girls.

Overall, 74.61 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 78.65 percent boys were present. Similarly out of total enrolled girls, 71.39 percent were present.

In SC category overall, 75.71 percent students were present out of the total students enrolled in SC category. In case of boys, this is 79.25 percent and in case of girls, this is 72.61 percent respectively.

In ST category overall, 44.57 percent students were present out of the total students enrolled in ST category. In case of boys, this is 67.86 percent and in case of girls, this is 33.61 percent respectively.

Overall, in the Jalore district total enrollment in primary classes on the day of survey is 9,741, out of which 2,514 (25.81 percent) students are in SC category and 1,603 (16.46 percent) students are in ST category. Out of total enrollment on the day of survey, 46.86 percent are boys and 53.14 percent are girls.

Overall, 71.02 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 74.28 percent boys were present. Similarly out of total enrolled girls, 68.14 percent were present.

In SC category overall, 69.65 percent students were present out of the total students enrolled in SC category. In case of boys, this is 70.36 percent and in case of girls, this is 68.94 percent respectively.

In ST category overall, 67.56 percent students were present out of the total students enrolled in ST category. In case of boys, this is 71.08 percent and in case of girls, this is 63.40 percent respectively.

Overall, in the Jalore district total enrollment in upper primary classes on the day of survey is 3,386, out of which 656 (19.37 percent) students are in SC category and 254 (7.50 percent) students are in ST category. Out of total enrollment on the day of survey, 52.66 percent are boys and 47.34 percent are girls.

Overall, 69.23 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 67.64 percent boys were present. Similarly out of total enrolled girls, 70.99 percent were present.

In SC category overall, 72.41 percent students were present out of the total students enrolled in SC category. In case of boys, this is 71.60 percent and in case of girls, this is 73.27 percent respectively.

In ST category overall, 69.69 percent students were present out of the total students enrolled in ST category. In case of boys this is 72.09 percent and in case of girls, this is 64.63 percent respectively.

Overall, in the Jalore district total enrollment upto upper primary on the day of survey is 13,127, out of which 3,170 (24.15 percent) students are in SC category and 1,857 (14.15 percent) students are in ST category. Out of total enrollment on the day of survey is 48.36 percent are boys and 51.64 percent are girls.

Overall, 70.56 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 72.42 percent boys were present. Similarly out of total enrolled girls, 68.82 percent were present.

In SC category overall, 70.22 percent students were present out of the total students enrolled in SC category. In case of boys, this is 70.62 percent and in case of girls, this is 69.82 percent respectively.

In ST category overall, 67.85 percent students were present out of the total students enrolled in ST category. In case of boys, this is 71.25 percent and in case of girls, this is 63.53 percent respectively.

Overall, in the Udaipur district total enrollment in primary classes on the day of survey is 13,419, out of which 595 (4.43 percent) students are in SC category and 10,044 (74.85 percent) students are in ST category. Out of total enrollment on the day of survey, 51.15 percent are boys and 48.85 percent are girls.

Overall, 78.61 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 79.37 percent boys were present. Similarly out of total enrolled girls, 77.82 percent were present.

In SC category overall, 64.37 percent students were present out of the total students enrolled in SC category. In case of boys, this is 65.03 percent and in case of girls, this is 63.67 percent respectively.

In ST category overall, 79.29 percent students were present out of the total students enrolled in ST category. In case of boys, this is 80.64 percent and in case of girls, this is 77.79 percent respectively.

Overall, in the Udaipur district total enrollment in upper primary classes on the day of survey is 4,469, out of which 206 (4.61 percent) students are in SC category and 2,553 (57.13 percent) students are in ST category. Out of total enrollment on the day of survey, 52.56 percent are boys and 47.44 percent are girls.

Overall, 84.09 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 85.82 percent boys were present. Similarly out of total enrolled girls, 82.17 percent were present. In SC category overall, 73.30 percent students were present out of the total students enrolled in SC category. In case of boys, this is 73.68 percent and in case of girls, this is 72.97 percent respectively. In ST category overall, 87.07 percent students were present out of the total students enrolled in ST category. In case of boys, this is 88.63 percent and in case of girls, this is 84.96 percent respectively.

Overall, in the Udaipur district total enrollment upto upper primary on the day of survey is 17,888, out of which 801 (4.48 percent) students are in SC category and 12,597 (70.42 percent) students are in ST category. Out of total enrollment on the day of survey, 51.50 percent are boys and 48.50 percent are girls. Overall, 79.98 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 81.02 percent boys were present. Similarly out of total enrolled girls, 78.88 percent were present.

In SC category overall, 66.67 percent students were present out of the total students enrolled in SC category. In case of boys, this is 67.08 percent and in case of girls, this is 66.25 percent respectively.

In ST category overall, 80.87 percent students were present, out of the total students enrolled in ST category. In case of boys, this is 82.37 percent and in case of girls, this is 79.12 percent respectively.

In Private Schools:

Overall, in the 3 districts total enrollment in primary on the day of survey is 17,085, out of which 2,431 (14.23 percent) students are in SC category and 2,192 (12.83 percent) students are in ST category. Out of total enrollment on the day of survey, 63.08 percent are boys and 36.92 percent are girls.

Overall, 80.49 percent students were present on the day of survey, out of the total enrolled students. Out of the total boys enrolled, 80.17 percent boys were present. Similarly out of total enrolled girls, 81.02 percent were present.

In SC category overall, 75.44 percent students were present, out of the total students enrolled in SC category. In case of boys, this is 75.19 percent and in case of girls, this is 75.88 percent respectively.

In ST category overall, 85.13 percent students were present out of the total students enrolled in ST category. In case of boys, this is 84.26 percent and in case of girls, this is 86.74 percent respectively.

Overall, in the 3 districts total enrollment in upper primary on the day of survey is 6,877, out of which, 910 (13.23 percent) students are in SC category and 610 (8.87 percent) students are in ST category. Out of total enrollment on the day of survey, 69.64 percent are boys and 30.36 percent are girls.

Overall, 82.13 percent students were present on the day of survey, out of the total enrolled students. Out of the total boys enrolled, 81.00 percent boys were present. Similarly out of total enrolled girls, 84.72 percent were present.

In SC category overall, 79.56 percent students were present, out of the total students enrolled in SC category. In case of boys, this is 80.40 percent and in case of girls, this is 77.38 percent respectively.

In ST category overall, 83.93 percent students were present out of the total students enrolled in ST category. In case of boys, this is 83.42 percent and in case of girls, this is 84.91 percent respectively.

Overall, in the 3 districts total enrollment upto upper primary on the day of survey is 23,962, out of which, 3,341 (13.94 percent) students are in SC category and 2,802 (11.69 percent) students are in ST category. Out of total enrollment on the day of survey, 64.96 percent are boys and 35.04 percent are girls.

Overall, 80.96 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 80.43 percent boys were present. Similarly out of total enrolled girls, 81.94 percent were present.

In SC category overall, 76.56 percent students were present out of the total students enrolled in SC category. In case of boys, this is 76.74 percent and in case of girls this is 76.22 percent respectively.

In ST category overall, 84.87 percent students were present out of the total students enrolled in ST category. In case of boys, this is 84.07 percent and in case of girls, this is 86.34 percent respectively.

Among the 3 districts:

Overall, in the Bharatpur district total enrollment in primary classes on the day of survey is 6,176, out of which, 1,215 (19.67 percent) students are in SC category and 61 (0.99 percent) students are in ST category. Out of total enrollment on the day of survey, 61.67 percent are boys and 38.33 percent are girls.

Overall, 83.78 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 83.43 percent boys were present. Similarly out of total enrolled girls, 84.33 percent were present.

In SC category overall, 83.29 percent students were present out of the total students enrolled in SC category. In case of boys, this is 84.80 percent and in case of girls, this is 80.75 percent respectively.

In ST category overall, 83.61 percent students were present out of the total students enrolled in ST category. In case of boys, this is 85.71 percent and in case of girls, this is 80.77 percent respectively.

Overall, in the Bharatpur district total enrollment in upper primary classes on the day of survey is 2,988, out of which 543 (18.17 percent) students are in SC

category and 56 (1.87 percent) students are in ST category. Out of total enrollment on the day of survey, 66.87 percent are boys and 33.13 percent are girls.

Overall, 88.59 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 89.39 percent boys were present. Similarly out of total enrolled girls, 86.97 percent were present.

In SC category overall, 85.82 percent students were present out of the total students enrolled in SC category. In case of boys, this is 88.71 percent and in case of girls, this is 79.53 percent respectively.

In ST category overall, 89.29 percent students were present out of the total students enrolled in ST category. In case of boys, this is 89.19 percent and in case of girls, this is 89.47 percent respectively.

Overall, in the Bharatpur district total enrollment upto upper primary on the day of survey is 9,164, out of which, 1,758 (19.18 percent) students are in SC category and 117 (1.28 percent) students are in ST category. Out of total enrollment on the day of survey, 63.37 percent are boys and 36.63 percent are girls.

Overall, 85.34 percent students were present on the day of survey, out of the total enrolled students. Out of the total boys enrolled, 85.48 percent boys were present. Similarly out of total enrolled girls, 85.11 percent were present.

In SC category overall, 84.07 percent students were present out of the total students enrolled in SC category. In case of boys, this is 86.08 percent and in case of girls, this is 80.42 percent respectively.

In ST category overall, 86.32 percent students were present out of the total students enrolled in ST category. In case of boys, this is 87.50 percent and in case of girls, this is 84.44 percent respectively.

Overall, in the Jalore district total enrollment in primary classes on the day of survey is 4,796, out of which, 714 (14.89 percent) students are in SC category and 167 (3.48 percent) students are in ST category. Out of total enrollment on the day of survey, 66.66 percent are boys and 33.34 percent are girls.

Overall, 59.78 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 59.40 percent boys were present. Similarly out of total enrolled girls, 60.54 percent were present.

In SC category overall, 52.38 percent students were present out of the total students enrolled in SC category. In case of boys, this is 51.94 percent and in case of girls, this is 53.33 percent respectively.

In ST category overall, 57.49 percent students were present out of the total students enrolled in ST category. In case of boys, this is 58.14 percent and in case of girls, this is 55.26 percent respectively.

Overall, in the Jalore district total enrollment in upper primary classes on the day of survey is 2,086, out of which, 229 (10.98 percent) students are in SC category and 47 (2.25 percent) students are in ST category. Out of total enrollment on the day of survey, 76.85 percent are boys and 23.15 percent are girls.

Overall, 63.18 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 61.45 percent boys were present. Similarly out of total enrolled girls, 68.94 percent were present.

In SC category overall, 57.64 percent students were present out of the total students enrolled in SC category. In case of boys, this is 57.98 percent and in case of girls, this is 56.10 percent respectively.

In ST category overall, 48.94 percent students were present out of the total students enrolled in ST category. In case of boys, this is 48.84 percent and in case of girls, this is 50.00 percent respectively.

Overall, in the Jalore district total enrollment upto upper primary on the day of survey is 6,882, out of which, 943 (13.70 percent) students are in SC category and 214 (3.11 percent) students are in ST category. Out of total enrollment on the day of survey, 69.75 percent are boys and 30.25 percent are girls.

Overall, 60.81 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 60.08 percent boys were present. Similarly out of total enrolled girls, 62.49 percent were present.

In SC category overall, 53.66 percent students were present out of the total students enrolled in SC category. In case of boys, this is 53.62 percent and in case of girls, this is 53.76 percent respectively.

In ST category overall, 55.61 percent students were present, out of the total students enrolled in ST category. In case of boys, this is 55.81 percent and in case of girls, this is 54.76 percent respectively.

Overall, in the Udaipur district total enrollment in primary classes on the day of survey is 6,113, out of which 502 (8.21 percent) students are in SC category and 1,964 (32.13 percent) students are in ST category. Out of total enrollment on the day of survey, 61.69 percent are boys and 38.31 percent are girls.

Overall, 93.41 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 94.48 percent boys were present. Similarly out of total enrolled girls, 91.67 percent were present.

In SC category overall, 89.24 percent students were present out of the total students enrolled in SC category. In case of boys, this is 88.67 percent and in case of girls, this is 90.10 percent respectively.

In ST category overall, 87.53 percent students were present out of the total students enrolled in ST category. In case of boys, this is 86.89 percent and in case of girls, this is 88.65 percent respectively.

Overall in the Udaipur district, total enrollment in upper primary classes on the day of survey is 1,803, out of which 138 (7.65 percent) students are in SC category and 507 (28.12 percent) students are in ST category. Out of total enrollment on the day of survey, 65.89 percent are boys and 34.11 percent are girls.

Overall, 93.34 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 93.27 percent boys were present. Similarly out of total enrolled girls, 93.50 percent were present.

In SC category overall, 91.30 percent students were present out of the total students enrolled in SC category. In case of boys, this is 91.84 percent and in case of girls, this is 90.00 percent respectively.

In ST category overall, 86.59 percent students were present out of the total students enrolled in ST category. In case of boys, this is 87.42 percent and in case of girls, this is 85.19 percent respectively.

Overall, in the Udaipur district total enrollment upto upper primary on the day of survey is 7,916, out of which 640 (8.08 percent) students are in SC category and 2,471 (31.22 percent) students are in ST category. Out of total enrollment on the day of survey, 62.65 percent are boys and 37.35 percent are girls.

Overall, 93.39 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled 94.19 percent boys were present. Similarly out of total enrolled girls, 92.05 percent were present.

In SC category overall, 89.69 percent students were present out of the total students enrolled in SC category. In case of boys, this is 89.45 percent and in case of girls, this is 90.08 percent respectively.

In ST category overall, 87.33 percent students were present, out of the total students enrolled in ST category. In case of boys, this is 87.00 percent and in case of girls, this is 87.92 percent respectively.

In Total Schools:

Overall, in the 3 districts total enrollment in primary on the day of survey is 50,010 out of which 8,282 (16.44 percent) students are in SC category and 14,014 (28.02 percent) students are in ST category. Out of total enrollment on the day of survey, 53.08 percent are boys and 46.92 percent are girls (See table 32e).

Overall, 72.62 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 74.73 percent boys were present. Similarly out of total enrolled girls, 70.23 percent were present.

In SC category overall, 64.24 percent students were present out of the total students enrolled in SC category. In case of boys, this is 65.74 percent and in case of girls, this is 62.55 percent respectively.

In ST category overall, 78.36 percent students were present, out of the total students enrolled in ST category. In case of boys, this is 80.11 percent and in case of girls, this is 76.26 percent respectively.

Overall, in the 3 districts total enrollment in upper primary on the day of survey is 18,164, out of which 2,817 (15.51 percent) students are in SC category and 3,444 (18.96 percent) students are in ST category. Out of total enrollment on the day of survey, 57.44 percent are boys and 42.56 percent are girls.

Overall, 76.73 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 78.16 percent boys were present. Similarly out of total enrolled girls, 74.81 percent were present.

In SC category overall, 73.38 percent students were present out of the total students enrolled in SC category. In case of boys, this is 74.78 percent and in case of girls, this is 71.46 percent respectively.

In ST category overall, 84.84 percent students were present out of the total students enrolled in ST category. In case of boys, this is 86.06 percent and in case of girls, this is 83.06 percent respectively.

Overall, in the 3 districts total enrollment upto upper primary on the day of survey is 68,174, out of which 11,041 (16.20 percent) students are in SC category and 17,458 (25.61 percent) students are in ST category. Out of total enrollment on the day of survey, 54.24 percent are boys and 45.76 percent are girls.

Overall, 73.71 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 75.70 percent boys were present. Similarly out of total enrolled girls, 71.36 percent were present.

In SC category overall, 66.57 percent students were present out of the total students enrolled in SC category. In case of boys, this is 68.19 percent and in case of girls, this is 64.65 percent respectively.

In ST category overall, 79.64 percent students were present out of the total students enrolled in ST category. In case of boys, this is 81.36 percent and in case of girls, this is 77.48 percent respectively.

Among the 3 district, overall, in the Bharatpur district total enrollment in primary classes on the day of survey is 15,941, out of which 3,899 (24.46 percent) students are in SC category and 236 (1.48 percent) students are in ST category. Out of total enrollment on the day of survey, 51.10 percent are boys and 48.90 percent are girls.

Overall, 64.44 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 67.95 percent boys were present. Similarly out of total enrolled girls, 60.77 percent were present.

In SC category overall, 59.68 percent students were present out of the total students enrolled in SC category. In case of boys, this is 62.90 percent and in case of girls, this is 56.24 percent respectively.

In ST category overall, 50.42 percent students were present out of the total students enrolled in ST category. In case of boys, this is 72.53 percent and in case of girls, this is 36.55 percent respectively.

Overall, in the Bharatpur district total enrollment in upper primary classes on the day of survey is 6,420, out of which, 1,588 (24.74 percent) students are in SC category and 83 (1.29 percent) students are in ST category. Out of total enrollment on the day of survey, 54.69 percent are boys and 45.31 percent are girls.

Overall, 75.31 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 80.89 percent boys were present. Similarly out of total enrolled girls, 68.58 percent were present.

In SC category overall, 74.50 percent students were present out of the total students enrolled in SC category. In case of boys, this is 77.74 percent and in case of girls, this is 70.22 percent respectively.

In ST category overall, 72.29 percent students were present out of the total students enrolled in ST category. In case of boys, this is 81.40 percent and in case of girls, this is 62.50 percent respectively.

Overall, in the Bharatpur district total enrollment upto upper primary on the day of survey is 22,361, out of which, 5,457 (24.54 percent) students are in SC category and 319 (1.43 percent) students are in ST category. Out of total enrollment on the day of survey, 52.13 percent are boys and 47.87 percent are girls.

Overall, 67.56 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 71.85 percent boys were present. Similarly out of total enrolled girls, 62.89 percent were present.

In SC category overall, 63.97 percent students were present out of the total students enrolled in SC category. In case of boys, this is 67.49 percent and in case of girls, this is 59.97 percent respectively.

In ST category overall, 56.11 percent students were present out of the total students enrolled in ST category. In case of boys, this is 75.37 percent and in case of girls, this is 42.16 percent respectively.

Overall, in the Jalore district total enrollment in primary classes on the day of survey is 14,537, out of which, 3,228 (22.21 percent) students are in SC category

and 1,770 (12.18 percent) students are in ST category. Out of total enrollment on the day of survey, 53.39 percent are boys and 46.61 percent are girls.

Overall, 67.31 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 68.15 percent boys were present. Similarly out of total enrolled girls, 66.35 percent were present.

In SC category overall, 65.83 percent students were present out of the total students enrolled in SC category. In case of boys, this is 65.19 percent and in case of girls, this is 66.58 percent respectively.

In ST category overall, 66.61 percent students were present out of the total students enrolled in ST category. In case of boys, this is 69.41 percent and in case of girls, this is 63.00 percent respectively.

Overall, in the Jalore district total enrollment in upper primary classes on the day of survey is 5,472, out of which 885 (16.17 percent) students are in SC category and 301 (5.50 percent) students are in ST category. Out of total enrollment on the day of survey, 61.88 percent are boys and 38.12 percent are girls.

Overall, 66.92 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 64.71 percent boys were present. Similarly out of total enrolled girls, 70.52 percent were present.

In SC category overall, 68.59 percent students were present out of the total students enrolled in SC category. In case of boys, this is 66.73 percent and in case of girls, this is 71.31 percent respectively.

In ST category overall, 66.45 percent students were present out of the total students enrolled in ST category. In case of boys, this is 67.44 percent and in case of girls, this is 63.95 percent respectively.

Overall, in the Jalore district total enrollment upto upper primary on the day of survey is 20,009, out of which 4,113 (22.56 percent) students are in SC category and 2,071 (10.35 percent) students are in ST category. Out of total enrollment on the day of survey, 55.71 percent are boys and 44.29 percent are girls.

Overall, 57.20 percent students were present on the day of survey, out of the total enrolled students. Out of the total boys enrolled, 67.11 percent boys were present. Similarly out of total enrolled girls, 67.33 percent were present.

In SC category overall, 66.42 percent students were present out of the total students enrolled in SC category. In case of boys, this is 65.55 percent and in case of girls, this is 67.50 percent respectively.

In ST category overall, 66.49 percent students were present out of the total students enrolled in ST category. In case of boys, this is 69.06 percent and in case of girls, this is 63.10 percent respectively.

Overall, in the Udaipur district total enrollment in primary classes on the day of survey is 19,532, out of which 1,097 (5.82 percent) students are in SC category

and 12,008 (61.48 percent) students are in ST category. Out of total enrollment on the day of survey, 54.45 percent are boys and 45.55 percent are girls.

Overall, 83.24 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 84.73 percent boys were present. Similarly out of total enrolled girls, 81.47 percent were present.

In SC category overall, 75.75 percent students were present, out of the total students enrolled in SC category. In case of boys, this is 76.73 percent and in case of girls, this is 74.54 percent respectively.

In ST category overall, 80.64 percent students were present out of the total students enrolled in ST category. In case of boys, this is 81.84 percent and in case of girls, this is 79.19 percent respectively.

Overall, in the Udaipur district total enrollment in upper primary classes on the day of survey is 6,272, out of which 344 (5.48 percent) students are in SC category and 3,060 (48.79 percent) students are in ST category. Out of total enrollment on the day of survey, 56.39 percent are boys and 43.61 percent are girls.

Overall, 86.75 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 88.32 percent boys were present. Similarly out of total enrolled girls, 84.72 percent were present.

In SC category overall, 80.52 percent students were present out of the total students enrolled in SC category. In case of boys, this is 82.90 percent and in case of girls, this is 77.48 percent respectively.

In ST category overall, 86.99 percent students were present out of the total students enrolled in ST category. In case of boys, this is 88.42 percent and in case of girls, this is 85.00 percent respectively.

Overall, in the Udaipur district, total enrollment upto upper primary on the day of survey is 25,804, out of which 1,441 (5.88 percent) students are in SC category and 15,068 (58.39 percent) students are in ST category. Out of total enrollment on the day of survey, 54.92 percent are boys and 45.08 percent are girls.

Overall, 84.10 percent students were present on the day of survey out of the total enrolled students. Out of the total boys enrolled, 85.63 percent boys were present. Similarly out of total enrolled girls, 82.23 percent were present.

In SC category overall, 76.89 percent students were present, out of the total students enrolled in SC category. In case of boys, this is 78.22 percent and in case of girls, this is 75.23 percent respectively.

In ST category overall, 81.93 percent students were present, out of the total students enrolled in ST category. In case of boys, this is 83.25 percent and in case of girls this is 80.29 percent respectively.

Other important aspects

Cooperation of Headmaster in giving information easily

Overall, in the 3 districts in 97.12 percent of schools, the cooperation of Headmaster was very good and in 2.88 percent of schools, the cooperation of Headmaster was good. In case of Private schools, this percentage was 93.96 percent for very good response, 4.70 percent for good and there was no response in case of 1.34 percent of schools (See table 35).

Among the 3 districts, in **Bharatpur** district, in 98.55 percent cooperation of Headmaster was very good and in 1.45 percent schools cooperation of Headmaster was good. In case of Private schools, 95.65 percent was reported to be very good and 4.35 percent was reported to be good. In **Jalore** district, in 95.00 percent schools this cooperation was very good in giving information easily in Government Schools and in 5.00 percent schools, the cooperation of Headmaster was good. In case of Private schools, this percentage was 90.00 percent for very good and 10.00 percent for good. In **Udaipur** district, in 97.42 percent cooperation of Headmaster was very good in giving information easily in Government Schools and in 2.58 percent schools, cooperation of Headmaster was good. In case of Private schools, this percentage was 95.24 percent for very good, 1.59 percent for good and in 3.17 percent of schools there was no response.

Principal could provide information easily

Overall, in the three districts, in 60.84 percent schools the way in which Principal could provide information was very good, in 39.16 percent schools it was good, in 0.00 percent schools it was satisfactory whereas in 0.00 percent schools, it was bad in case of Government schools. In case of Private schools, this percent was 45.28 percent for very good, 46.54 percent for good and 8.18 percent for satisfactory (See table 36).

Among the 3 districts, in **Bharatpur** district, in 45.65 percent schools the way in which Principal could provide information was very good and in 54.35 percent schools it was good in case of Government schools. In case of Private schools, this percent was 41.30 percent for very good and 38.70 percent for good. In **Jalore** district, in 62.50 percent schools the way in which Principal could provide information was very good, in 37.50 percent schools it was good and in 0.00 percent schools it was satisfactory in case of Government schools. In case of Private schools this percent was, 30.00 percent for very good, 70.00 percent for good and 0.00 percent for satisfactory. In **Udaipur** district, in 70.62 percent schools the way in which Principal could provide information was very good, in 29.38 percent schools it was good, in 0.00 percent schools it was satisfactory & in 0.00 percent it was bad in case of Government schools. In case of Private schools, this percent was 65.08 percent for very good and 30.16 percent for good, in 4.76 percent schools it was satisfactory.

Information given from single register only

Overall, in the 3 district in 98.89 percent government and 88.05 percent private schools, information given by single register only. In **Bharatpur** district, this

percent was 98.55 percent for government and 95.65 percent for private schools. In **Jalore** district, this percent was 99.17 percent for government and 90.00 percent for private schools. In **Udaipur** district, this percent was 98.97 percent for government and 95.24 percent for private schools (See table 36).

Maintenance of attendance register

Overall, in the 3 district in 93.14 percent government and 76.10 percent private schools attendance register was properly maintained. In **Bharatpur** district, this percent was 87.68 percent for government and 67.39 percent for private schools.

In **Jalore** district, this percent was 96.67 percent for government and 92.50 percent for private schools. In **Udaipur** district, this percent was 94.85 percent for government and 84.13 percent for private schools (See table 36).

Availability of students' enrollment in category

Overall, in the 3 district in 66.37 percent government and 61.01 percent private schools, category wise students' enrollment were available. In **Bharatpur** district, this percent was 28.99 percent for government and 21.74 percent for private schools.

In **Jalore** district, this percent was 99.17 percent for government and 92.50 percent for private schools. In **Udaipur** district, this percent was 72.68 percent for government and 79.37 percent for private schools (See table 36).

Availability of report card of school

Overall, in the 3 district in 99.12 percent government and 91.82 percent private schools, school report card were available. In **Bharatpur** district, this percent was 99.28 percent for government and 100.00 percent for private schools. In **Jalore** district, this percent was 98.33 percent for government and 97.50 percent for private schools. In **Udaipur** district, this percent was 99.48 percent for government and 96.83 percent for private schools (See table 36).

Preserving records properly

Overall, in the 3 district 98.67 percent government and 91.19 percent private schools were preserving records properly. In **Bharatpur** district, this percent was 99.28 percent for government and 97.83 percent for private schools. In **Jalore** district, this percent was 100.00 percent for government and 95.00 percent for private schools. In **Udaipur** district, this percent was 97.42 percent for government and 98.41 percent for private schools (See table 36).

Teachers reaching school in time

Overall, in the 3 district in 92.26 percent government and 76.73 percent private schools, teachers were reaching school in time. In **Bharatpur** district, this percent was 94.20 percent for government and 86.96 percent for private schools. In **Jalore** district, this percent was 83.33 percent for government and 72.50

percent for private schools. In **Udaipur** district, this percent was 96.39 percent for government and 84.13 percent for private schools (See table 36).

Availability of DISE format

Overall, in the 3 districts in 95.26 percent government and 73.76 percent private schools, DISE format was available. In **Bharatpur** district, this percent was 94.20 percent for government and 83.96 percent for private schools. In **Jalore** district, this percent was 89.66 percent for government and 73.15 percent for private schools. In **Udaipur** district, this percent was 96.39 percent for government and 85.36 percent for private schools (See table 36).

Problem faced by enumerator in collecting information

Overall, in the 3 districts in 8.19 percent government and 12.58 percent private schools, enumerator faced the problem in collecting information. In **Bharatpur** district, this percent was 7.97 percent for government and 15.22 percent for private schools. In **Jalore** district, this percent was 14.17 percent for government and 17.50 percent for private schools. In **Udaipur** district, this percent was 4.64 percent for government and 9.52 percent for private schools (See table 36).

Availability of display boards in the school

Overall, in the 3 districts, in 54.20 percent government and 45.28 percent private schools, display boards were available in the school. In **Bharatpur** district, this percent was 41.30 percent for government and 32.61 percent for private schools. In **Jalore** district, this percent was 70.83 percent for government and 45.00 percent for private schools. In **Udaipur** district, this percent was 53.09 percent for government and 61.90 percent for private schools (See table 36).

Chapter 4

Background

The Directorate of Economics and Statistics has been commissioned to conduct a Study on the 5% post enumeration check of the DISE data. The District Statistical Officers (DSOs) and Assistant Statistical Officers (ASO) were entrusted with the task of collecting data by canvassing a semi-structured schedule called the special Data Capture Format (DCF).

Major Findings

In all, 67,662 and 69,813 students have been reported to be enrolled in the 601 schools in the years 2010-11 and 2011-12 respectively. There is a slight increase in the number of students enrolled between the two years. The data reveals that the total number of girls enrolled per 1,000 boys has increased in all the three districts. The percentage increase in girls' enrollment per 1,000 boys is highest in Bharatpur district at 25.5 percent followed by Udaipur (7.6 percent) and Jalore (2.4 percent) (see table 13a).

Table 13a : Total enrollment by gender in the three districts in 5% PES, 2010-11 & 2011-12

Districts	Total Boys, 2010-11	Total Girls, 2010-11	Total Enrollment, 2010-11	Total Boys, 2011-12	Total Girls, 2011-12	Total Enrollment, 2011-12	No. of Girls per 1,000 Boys enrolled, 2010-11	No. of Girls per 1,000 Boys enrolled, 2011-12	% change in girls per 1,000 boys enrolled
Total of three districts	38448	29214	67662	37819	31967	69813	757	845	11.7
Bharatpur	13610	10303	23913	11827	10924	22751	736	924	25.5
Jalore	10803	7951	18754	11330	9060	20390	781	800	2.4
Udaipur	14035	10960	24995	14662	11983	26672	760	817	7.6

With regards to the enrollment by social category, the percentage of both SC and ST enrolled has increased between the years 2010-11 and 2011-12 (see table 14).

Table 14 : Percentage of SC and ST enrolled in the three districts in 5% PES, 2010-11 & 2011-12

Districts	Total Sampled Schools	% of SC enrolled out of total enrolled, 2010-11	% of SC enrolled out of total enrolled, 2011-12	% of ST enrolled out of total enrolled, 2010-11	% of ST enrolled out of total enrolled, 2011-12
Total of three districts	601	15.14	16.07	24.91	25.99
Bharatpur	184	21.44	24.53	3.31	1.31
Jalore	160	18.92	20.79	9.85	11.24
Udaipur	257	6.27	5.24	56.88	58.34

Table 15 : Status of drop-outs in the three districts for the year 2010-11 and 2011-12 in PES

Particulars	Total of 3 districts, 2010-11			Total of 3 districts, 2011-12			% Change		
	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total
Drop-outs	279	209	469	210	259	324	-24.7	23.9	-30.9

The number of drop-outs has increased among girls in the 5% sampled schools between 2010-11 and 2011-12, while it has decreased in case of boys (see table 15).

Facilities in schools

With regards to the availability of facilities of like playground, common toilets, girls' toilet, separate toilet for teachers and other staff, electricity, drinking water facility and computers, on an average, the most tribal district in terms of percentage of ST, Jalore seems to be deprived, as it is low in availability of playgrounds, common toilets, separate toilets for teachers and other staff and availability of drinking water facility.

Student classroom ratio

With regards to infrastructure, overall in the 3 districts, the student-class room ratio is 24.39. In case of Government schools, it is 23.49, whereas for private schools this ratio is 26.23. Amongst the three districts, this ratio is highest in Jalore (26.83) followed by Bharatpur (25.22) and lowest in Udaipur (22.23). In case of government schools, this ratio is highest in Jalore (24.36) followed by Udaipur (23.25) and lowest in Bharatpur (22.98). For private schools, this ratio is highest in Jalore (33.24) followed by Bharatpur (29.31) and it is lowest in Udaipur (20.29) (see table 16).

Table 16 : Student-Classroom ratio (SCR) and Pupil Teacher Ratio (PTR) in the three districts for the year 2011-12 in PES

Ratio	Type	Bharatpur	Jalore	Udaipur	TOTAL OF THREE DISTRICTS
Student-Class room ratio (SCR)	Government	22.98	24.36	23.25	23.49
	Private	29.31	33.24	20.29	26.23
	Total	25.22	26.83	22.23	24.39
Pupil Teacher Ratio (PTR)	Government	27.18	40.91	36.47	34.11
	Private	29.03	35.25	17.95	25.04
	Total	27.92	38.76	27.53	30.22

Pupil Teacher Ratio (PTR)

Overall in the 3 districts, the Pupil Teacher Ratio is 30.22. In case of Government schools, this ratio is 34.11, whereas for private schools this ratio is 25.04. Amongst the three districts, the Pupil teacher ratio is highest in Jalore (38.76) followed by Bharatpur (27.92) and Udaipur (27.53). In case of Government Schools, it is highest in Jalore district (40.91) followed by Udaipur (36.47) and Bharatpur (27.18). In case of private schools, it is highest in case of Jalore (35.25) followed by Bharatpur (29.03) and Udaipur (17.95) (see table 16).

Table 17a : Pass percentage of students in three districts for the year 2010-11 in PES

Percentage Passed	TYPE	Bharatpur	Jalore	Udaipur	TOTAL OF THREE DISTRICTS
Pass percent of Class V students	Government	99.71	97.10	99.82	98.78
	Private	95.43	100.00	96.04	97.70
	Total	98.69	98.12	98.63	98.44
Pass percent of class VIII students	Government	82.13	86.31	93.07	88.05
	Private	91.01	98.54	98.48	94.47
	Total	86.61	90.12	94.26	90.32

Percentage of students passing

In the year 2010-11, in case of the percentage of pupils of class V, who passed, it is highest in case of Bharatpur (98.69 percent) followed by Udaipur (98.63 percent) and Jalore (98.12 percent). In case of the percentage of pupils of class VIII, who passed, it is highest in case of Udaipur (94.26 percent) followed by Jalore (90.12 percent) and Bharatpur (86.61 percent) (see table 17a).

Table 17b : Pass percentage of students in three districts for the year 2011-12 in PES

Percentage Passed	TYPE	Jalore	Bharatpur	Udaipur	TOTAL OF THREE DISTRICTS
Pass percentage of Class V students	Government	99.66	100.00	99.08	99.58
	Private	100.00	100.00	99.51	99.80
	Total	99.78	100.00	99.20	99.66
Pass percentage of Class VIII students	Government	94.88	99.70	99.35	97.95
	Private	100.00	99.75	99.79	99.80
	Total	96.68	99.72	99.47	98.81

In the year 2011-12, in case of the percentage of pupils of class V, who passed, it is highest in case of Bharatpur (100.00 percent) followed by Jalore (99.78 percent) and Udaipur (99.20 percent). In case of the percentage of pupils of class VIII, who passed, it is highest in case of Bharatpur (99.72 percent) followed by Udaipur (99.47 percent) and Jalore (96.68 percent) (see table 17b).

Conclusions

There seems to be some variation between the regular DISE data captured by the DCF and the special DCF of PES data. With regards to the findings of the 5% PES of the schools, the following are a matter of concern:

1. There is an increase girls' drop out between 2010-11 and 2011-12.
2. There is low availability of facilities in the Govt. schools of with regards to availability of playgrounds, common toilets, separate toilets for teachers and other staff and availability of drinking water facility.

Recommendations

The following are some of the recommendations based on field experience:

- The system of DISE needs to be popularized by the School education department by making it usable at the district administration level to identify low performing panchayat samitis and panchayats and by the schools.
- There needs to be periodic dissemination of data and feedback needs to be taken from the community level.
- Strict Monitoring of the DISE DCF formats needs to be done to ensure quality of data and reduce variation.
- The DISE data should be made available in excel format on the website, so that further analysis could be done on it easily.
- The focus needs to be on other indicators in addition to Gross and Net enrolment ratio.

- The focus needs to be on retaining girls in the schools as there is an increase in the drop out of girls.
- The panchayati raj members need to be sensitized to check the DISE DCF data, monitor and suggest measures for improvement.

**FIVE PERCENT SAMPLE CHECK : SPECIAL
DCF FOR POST ENUMERATION SURVEY**

जिला शिक्षा सूचना प्रणाली

Five Percent Sample Check : Special DCF for Post Enumeration Survey

विद्यालय सर्वे का दिनांक शैक्षणिक वर्ष 2011-12
सर्वेकर्ता का नाम
सर्वे कार्य कराने वाले संगठन का नाम : आर्थिक एवं सांख्यिकी निदेशालय, जयपुर।
राज्य राजस्थान जिला पिन कोड

(क) विद्यालय की स्थिति

1. गांव का नाम / वार्ड संख्या
2. पंचायत समिति / नगर निकाय का नाम
3. ग्रामीण / शहरी (कोड लिखें) (ग्रामीण-1 / शहरी-2)
4. डाईस विद्यालय का कोड

(ख) विद्यालय का विवरण

1. विद्यालय का नाम
2. प्रधानाचार्य/वरिष्ठ अध्यापक का नाम श्री/श्रीमती.....
3. प्रधानाचार्य की शैक्षणिक योग्यता
4. प्रधानाचार्य/वरिष्ठ अध्यापक के पद पर इस विद्यालय में कितने वर्षों से कार्य कर रहे हैं।
5. प्रधानाचार्य के पद पर/वरिष्ठ अध्यापक के पद पर कुल कितने वर्षों से कार्य कर रहे हैं।
(पिछले विद्यालय में कार्यरत वर्षों को मिलाकर)
6. विद्यालय की स्थापना का वर्ष
7. विद्यालय की श्रेणी (कोड लिखें)
प्राथमिक (1) प्राथमिक एवं उच्च प्राथमिक (2) माध्यमिक या उच्चतर माध्यमिक के साथ प्राथमिक
(3) केवल उच्च प्राथमिक (4) माध्यमिक या उच्चतर माध्यमिक के साथ उच्च प्राथमिक (5)
8. विद्यालय का प्रकार (कोड लिखें)
केवल लड़कों का विद्यालय (1) केवल लड़कियों का विद्यालय (2) सह शिक्षा (3)

9. विद्यालय में सबसे छोटी कक्षा

10. विद्यालय में सबसे बड़ी कक्षा

11. विद्यालय प्रबन्धन (कोड लिखें)

शिक्षा विभाग द्वारा (1) आदिवासी कल्याण विभाग द्वारा (2) स्थानीय निकाय द्वारा (3) निजी सहायता प्राप्त (4) निजी गैर सहायत प्राप्त (5) अन्य (6) मान्यता प्राप्त नहीं (7)

12. आवासीय विद्यालय (हाँ-1/नहीं-2)

13. यदि हाँ तो प्रकार का कोड लिखें।

विद्यालय परिसर में (सरकारी) (1) विद्यालय परिसर से बाहर (सरकारी) (2) निजी (3) अन्य (4)

14. क्या विद्यालय का भवन पारी के रूप में इस्तेमाल किया जाता है। (हाँ-1 नहीं-2)

(ग) कर्मचारियों का विवरण (प्राथमिक और उच्च प्राथमिक)

शिक्षकों के कुल स्वीकृत पदों की संख्या

कार्यरत कुल शिक्षकों की संख्या

शिक्षकों का विवरण	प्राथमिक		उच्च प्राथमिक	
	पुरुष	महिला	पुरुष	महिला
शिक्षकों की संख्या (प्रधानाचार्य/मुख्य अध्यापक को छोड़कर)				
पैरा शिक्षक/शिक्षाकर्मी/गुरुजी/सामुदायिक शिक्षक				
गैर शिक्षक कर्मचारी				
मिड डे मील बनाने में नियुक्त कर्मचारियों की संख्या				
सफाई व्यवस्था में नियुक्त कर्मचारियों की संख्या				
सर्वेक्षण के दिन उपस्थित शिक्षकों की संख्या				

(घ) विद्यालय में सुविधाएँ

1. विद्यालय भवन का स्तर (संकेतांक लिखें)
निजी (1)/किराये पर (2) /सरकारी (3)/किराये के भन में सरकारी विद्यालय (4)/
बिना भवन के (5)
2. विद्यालय भवन का प्रकार (संकेतांक लिखें)
पक्का (1)/आंशिक पक्का (2)/कच्चा (3)/टैन्ट (4)/बिना भवन के (5)
3. विद्यालय में ब्लाक्स की संख्या:
4. विद्यालय में स्थित कक्षाओं के कमरों एवं अन्य कमरों की स्थिति। कृपया दी गई स्थिति में कमरों (कक्षा कमरों और अन्य कमरों) की संख्या इन्द्राज करें।

स्थिति	कक्षाओं के कमरों की संख्या	अन्य कमरों की संख्या	टिप्पणी (यदि कोई हो)
अच्छी स्थिति			
थोड़ी मरम्मत की आवश्यकता			
ज्यादा मरम्मत की आवश्यकता			
अनुपयोगी			

5. विद्यालय में विद्युत की उपलब्धता : (हाँ-(1)/नहीं-(2)
6. विद्यालय में साझा शौचालय की उपलब्धता : (हाँ-1)/नहीं-(2)
7. लड़कियों के लिए अलग से शौचालय उपलब्ध है : (हाँ-(1)/नहीं-(2)
8. कर्मचारियों के लिए अलग से शौचालय सुविधा उपलब्ध है: (हाँ-(1)/नहीं-(2)
9. विद्यालय में चार दिवारी की स्थिति:- (संकेतांक लिखें)
पक्की (1)/पक्की लेकिन टूटी हुई/(2) कंटीले तार की बाड़ (3)/झाड़ी (4)/चार दिवारी नहीं (5)/
अन्य (6)
10. विद्यालय में पीने के पानी की सुविधा का स्रोत : (संकेतांक लिखें)
हैंड पम्प (1)/कुआँ (2)/नल का पानी/(3) अन्य (4)/पीने के पानी की सुविधा उपलब्ध नहीं (5)
11. क्या विद्यालय में खेल का मैदान है (हाँ-(1)/नहीं-(2)
12. अच्छी स्थिति (चालू हालत) में उपलब्ध कम्प्यूटरों की संख्या :
13. विद्यालय में बच्चों के लिए बैठने की व्यवस्था : (संकेतांक लिखें)
सभी बच्चों के लिए फर्नीचर (1)/कुछ बच्चों के लिए फर्नीचर (2)/कोई फर्नीचर नहीं, बच्चे फर्श पर बैठते हैं (3)

(ड)- छात्रों का नामांकन

आधार तिथि 30-9-10

(1) पिछले शैक्षणिक वर्ष में बच्चों का नामांकन

शैक्षणिक वर्ष (2010-11)

नामांकन	कक्षा-1		कक्षा-2		कक्षा-3		कक्षा-4		कक्षा-5		कक्षा-6		कक्षा-7		कक्षा-8	
	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा
कुल नामांकन																
रीपीटर्स (Repeaters)																
अनु. जा. के बच्चों का नामांकन																
अनु. जनजाति के बच्चों का नामांकन																
ओ.बी.सी. के बच्चों का नामांकन																
विकलांग बच्चों का नामांकन																
विद्यालय छोड़ चुके बच्चों की संख्या																

(2) सर्वेक्षण के दिवस बच्चों का नामांकन और उपस्थिति का विवरण

***सर्वे के दिन की वास्तविक उपस्थिति संख्या**

कक्षा	सर्वेक्षण के दिवस नामांकन						सर्वेक्षण के दिवस उपस्थिति									
	कुल		अनु0जाति		अनु0 जन0जाति		कुल		अनु0जाति		अनु0 जन0जाति					
	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा				
कक्षा-1																
कक्षा-2																
कक्षा-3																
कक्षा-4																
कक्षा-5																
कक्षा-6																
कक्षा-7																
कक्षा-8																

टिप्पणी:- नामांकन का अर्थ: विद्यालय पंजिका में दर्ज बच्चों की संख्या से है।

*उपस्थिति का अर्थ : सर्वेक्षण के दिन कक्षाओं में उपस्थित बच्चों की वास्तविक संख्या से है।

(3) वर्तमान शैक्षणिक वर्ष में बच्चों का नामांकन

आधार तिथि 30-9-2011

शैक्षणिक वर्ष (2011-12)

नामांकन	कक्षा-1		कक्षा-2		कक्षा-3		कक्षा-4		कक्षा-5		कक्षा-6		कक्षा-7		कक्षा-8	
	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा
कुल नामांकन																
दोहराने वाले (रीपीटर्स)																
अनु० जा० के बच्चों का नामांकन																
अनु०जन०जा० के बच्चों का नामांकन																
ओ०बी०सी० के बच्चों का नामांकन																
विकलांग बच्चों का नामांकन																
बच्चों की संख्या जिन्होंने विद्यालय छोड़ दिया																

(4) गत शैक्षणिक वर्ष की वार्षिक परीक्षा का श्रेणीवार विवरण

शैक्षणिक वर्ष 2009-10

मार्च 2010 का नामांकन

श्रेणी	शैक्षणिक वर्ष के अन्त का नामांकन						परीक्षा में उपस्थित बच्चों की संख्या						परीक्षा में उत्तीर्ण बच्चों की संख्या					
	कुल		अ०जा०		अ०ज०जा०		कुल		अ०जा०		अ०ज०जा०		कुल		अ०जा०		अ०ज०जा०	
	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा
कक्षा IV/V																		
कक्षा VII/VIII																		

(5) पिछले शैक्षणिक वर्ष की वार्षिक परीक्षा का श्रेणीवार विवरण

शैक्षणिक वर्ष 2010-11
मार्च 2011 का नामांकन

श्रेणी	शैक्षणिक वर्ष के अन्त का नामांकन						परीक्षा में उपस्थित बच्चों की संख्या						परीक्षा में उत्तीर्ण बच्चों की संख्या					
	कुल		अ0जा0		अ0ज0जा0		कुल		अ0जा0		अ0ज0जा0		कुल		अ0जा0		अ0ज0जा0	
	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा	छात्र	छात्रा
कक्षा IV/V																		
कक्षा VII/VIII																		

(प्रधानाचार्य के हस्ताक्षर)

अन्वेषक प्रतिक्रिया अनुसूची

1. अन्वेषक का नाम जो सर्वेक्षण कर रहा है।
2. डाईस विद्यालय कोड
3. विद्यालय में सर्वे का दिनांक / /
4. क्या प्रथम बार जाने पर विद्यालय खुला था (हाँ-1 नहीं-2)
5. यदि नहीं तो दूसरी यात्रा का दिनांक / /
6. क्या दूसरी बार जाने पर विद्यालय खुला था (हाँ-1/नहीं-2)
7. सूचना प्राप्त करने के लिए विद्यालय में की गई यात्राओं की संख्या

(यदि दोनों-यात्रा के दौरान विद्यालय बन्द था तो बीआरसी/सीआरसी समन्वयक से विद्यालय बदलने के लिए सम्पर्क किया)

निरीक्षण के दौरान प्रधानाचार्य/प्रमुख अध्यापक की प्रतिक्रिया

प्रतिक्रिया	विद्यालय से प्राप्त प्रति उत्तर की श्रेणी (✓)				
	बहुत अच्छा	अच्छा	औसत	खराब	बहुत खराब
प्रधानाचार्य/प्रमुख अध्यापक की प्रारंभिक प्रतिक्रिया					
प्रधानाचार्य/प्रमुख अध्यापक का सूचना देने में सहयोग					
रिकार्ड की उपलब्धता					

1. क्या प्रधानाचार्य/प्रमुख अध्यापक ने बच्चों के नामांकन और उत्तीर्ण प्रतिशत की जानकारी आसानी से दी (हाँ-1/नहीं-2)
2. क्या प्रधानाचार्य ने नामांकन एवं अन्य विवरण एक ही रजिस्टर से दिया है। (हाँ-1/नहीं-2)
3. क्या विद्यालय में अध्यापक द्वारा उपस्थिति पंजिका को ठीक तरह से संधारित किया जा रहा है। (हाँ-1/नहीं-2)
4. क्या प्रधानाचार्य के पास सभी बच्चों का श्रेणीवार पूरे वर्ष का सारांश उपलब्ध है। (हाँ-1/नहीं-2)
5. क्या विद्यालय में विद्यालय का रिपोर्ट कार्ड उपलब्ध है। (हाँ-1/नहीं-2)

6. क्या उपस्थिति पंजिका ठीक से बनायी गयी और आलमारी में सुरक्षित रखी गयी है। (हाँ-1/नहीं-2)
7. क्या अध्यापक विद्यालय में समय से आते हैं। (हाँ-1/नहीं-2)
8. क्या विद्यालय के पास डाइस/डीसीएफ की भरी हुई प्रतिलिपि थी। (हाँ-1/नहीं-2)
9. क्या अन्वेषक को विद्यालय से जानकारी प्राप्त करने में कोई समस्या रही। (हाँ-1/नहीं-2)
- (यदि हाँ तो समस्या का संक्षिप्त विवरण दें)

.....

.....

.....

.....

(अगर उपलब्ध जगह पर्याप्त नहीं है, तो अलग कागज का प्रयोग करें)

10. क्या विद्यालय में डिस्टले बोर्ड है। (हाँ-1/नहीं-2)
11. क्या विद्यालय में दोपहर के भोजन (मिड डे मील) का प्रावधान है। (हाँ-1/नहीं-2)
12. विद्यालय में मिड डे मील योजना अन्तर्गत बच्चों को दिये जा रहे भोजन की गुणवत्ता कैसी है ?
1. अच्छी हैं। 2. सन्तोषजनक है। 3. सन्तोषजनक नहीं है।
13. विद्यालय में बच्चों के लिये बैठने की क्या व्यवस्था है ?
- (कृपया नीचे अपनी टिप्पणी दीजिए)

.....
